Vegetable Plants and Roots

We make a specialty of growing and supplying market-gardeners and private gardens with the very best, strong, well-rooted, transplanted vegetable plants in any quantity. While we grow enormous quantities of all varieties, the demand for our plants is always greater than our supply. For this reason we advise you to order as early as possible. To the dealers prices add 6cts., if wanted by mail. The price per 100 in flats is $1.00. The price per 1000 in flats is $5.00.

Satisfaction Guaranteed or Your Money Back

Should any seeds fail to please, we will refund the price paid or duplicate your order free.

Our Responsibility and Standing: Holmes Seed Company is incorporated under Pennsylvania laws. We refer you to Harrisburg National Bank or Security Trust Company of Harrisburg, to Dun's and Bradstreet's Mercantile Agencies, and to any responsible business house in this city. We feel sure that when you have once bought from us, you will become our permanent customer. We give you good seeds and plants at fair prices. You get your money's worth always. If a mistake is made, it is our desire to correct it; this you may depend on.

We Deliver Free. The prices quoted include prepayment of postage on all seeds, plants or bulbs, etc., whether they may be sent by mail, express or freight. If you prefer to deal with your local store, ask for Holmes' tested seeds. If he does not have them, then send direct to us.

We Guarantee Our Seeds to be pure and of strong vitality. If from any cause they should fail to prove of such quality, we will refill the order or refund the price paid upon receipt of satisfactory evidence that such is the case. But the Holmes Seed Company do not give, nor are they any of their agents or employees permitted to give, any warranty, expressed or implied, as to descriptions, quality, productiveness, or any other matter of any seed, bulb or plant they send out, beyond the guarantee published in this catalogue, which is very liberal, and will not be in any way responsible for the crop beyond the replacing of the seeds or returning the money paid. If the purchaser does not accept the goods on these terms they are at once to be returned. Good seeds, fair prices, honesty, "money back"—our policy.

Discount and How to Remit. If your order is for one dollar or more, deduct 20 per cent from the total value, at catalogue prices of seeds by the packet or ounce. This does not apply to larger quantities. We request that remittance to the amount of each order be sent with the order, and guarantee that full value will be received in good order.

Fruit Trees and Small Fruits

APPLES. 2-yr., 6 to 8 ft., 50 cts. each, $3 per doz., $35 per 100. Write for price on other grades of any variety, listed or not.

Mammoth Black Twig. Large; red; productive; vigorous. Feb.

Yellow Transparent. Early; young bearer; yellow; round. Sept.

CHERRIES. 5 to 6 ft., 40 cts. each; $4 per doz., $30 per 100. Write.

Black Tartarian. Very large; black; flavor mild; vigorous. Late.

Early Richmond. Medium size; dark red; acid; productive. June.

Yellow Spanish. Large; pale yellow; firm; popular; tree vigorous.

GRAPES, Concord. Well-known standard.

Green Mountain. Very early; best quality; medium size; white.

Moore's Early. Bunch and berry very large; bluish blush. Earliest.

Niagara. Hardy; strong grower; large, compact bunches; greenish semi-transparent berries, very sweet.

PEACHES, Carman. Large; pale yellow; white flesh; very early.

Crawford's Early. Best for market; large; productive; late Aug.

Elberta. Every one knows it. Large; yellow; high quality.

Mountain Rose. Largest early Peach, white with red cheek. Free.

Old Mixon. Free; large; white-red. Late August.

Stump the World. Very large; white-red; good. Late September.

PEARS, Anjou. Large, buttery; valuable; vigorous; productive. Oct.

Lawrence. Medium size; canary-yellow; good keeper; good grower.

PLUM, Burbank. Medium round; orange-yellow; firm; sugary. Aug.

APRICOTS, Russian. 2 yr., 40 cts. each, $4 per doz.

Alexander. Medium, oblong, yellow, firm, coarse fruit. Late July.

BLACKBERRIES. All 50 cts. per doz., $2 per 100, $15 per 1,000, except Mercereau.

Gooseberries. Chautauqua. White, fine, large, handsome; good; vigorous and productive. 25 cts. each, $2 per doz., $15 per 100.

PEAR. Very productive; healthy; largest berries; excellent quality.

2 yr. 15 cts. each, $1.50 per doz., $10 per 100.

Triumph. English type; large; golden yellow; immense bearer; hard. 2 yr. 25 cts. each, $3 per doz., $35 per 100.

RASPBERRIES, Chautauqua. Large Raspberry known. Hardy; immensely productive; fruit firm and good as it can be. Black. 50 cts. per doz., $1.50 per 100, $10 per 1,000.

Golden Queen. Yellow; large, delicious. 75c. per doz., $3 per 100.

STRAWBERRIES. 25 cts. per doz., $2.50 per 100, $30 per 1,000.

Acanthos. Late as Candy. Big yielder; superior eating and shipping qualities; large and handsome; plant healthy and vigorous.

Candy. Almost last to ripen. Large, firm, bright crimson and good.

Sample. Very popular; great bearer; large, roundish berries; dark red and good. Late. Excellent plattilete kind.

Senator Dunlap. Healthy and prolific; large, delicious, midseason.
WAX BEANS

NEW ROUND-POD KIDNEY WAX

Our customers have frequently asked for a round-podded Wax Bean possessing the excellent market and shipping qualities of the popular Wardwell's Kidney Wax, and this will fill the bill. The plant grows tall, strong and sturdy, with long, round, handsome, stringless pods of large size, very solid and full of meat, crisp, brittle and free from rust; wonderfully early and productive. No other round-podded Wax Bean possesses so many good qualities as this Bean. Pkt. 10 cts., pt. 25 cts., qt. 45 cts., by mail, postpaid; by freight or express, qt. 30 cts., 2 qts. 55 cts., 4 qts., $1, pk. $1.75.

CURRIE'S RUST-PROOF WAX

It is positively proof against rust. While grown side by side, for many years, with other Wax Beans, all of them more or less affected by rust, and many completely ruined by it, this Bean remained entirely free. It possesses the most excellent quality of being exceedingly crisp and tender, with no approach to stringiness, and of a most delicious flavor. Pkt. 10 cts., pt. 20 cts., qt. 35 cts., postpaid; by express or freight, qt. 25 cts., pk. $1.50.

IMPROVED STRINGLESS REFUGEE WAX

Strong bush growth; very productive. Slender, round, light golden-yellow pods five inches long, solid, meaty, brittle, and stringless. It is quite early. Pkt. 10 cts., pt. 25 cts., postpaid; by express or freight, qt. 25 cts., 4 qts. 80 cts., pk. $1.50.

DAVIS' WHITE WAX

Immensely productive, bearing large, handsome straight pods, six inches in length. The pods are tough, however, with decided strings. The dry white seed is desirable for winter market as a shell Bean. Flavor when baked particularly good. Pkt. 10 cts., pt. 25 cts., postpaid; by express or freight, qt. 25 cts., 4 qts. 80 cts., pk. $1.50.

POLE, or RUNNING BEANS

Culture.—Pole beans are even more sensitive to cold and wet, as well as to drought and hot winds, than the dwarf varieties, but are of superior quality and productiveness. And extending north and south, the poles being 3 feet apart in the row. Let the poles slant slightly toward the north. Set in this way, the vines cling better and the pods are straighter and more easily seen. The poles should be set solidly so they will not lean in the way of cultivation. Around each hill plant five to eight Beans 2 inches deep. When well started, thin to four plants and see that they all climb around the pole in the same way, for they will not grow if tied up in the opposite direction. Another plan is to plant in rows thickly enough so that there will be one plant to 8 or 10 inches. Set posts five feet high firmly at each end of the rows and drive stakes made of 2 x 2 lumber at intervals of 16 feet along the rows. Stretch a wire, size number 10 or 12 between posts along each row, and fasten it to the tops of the stakes in the row with wire staples. Run a light wire or twine along the row about 6 inches from the ground and fasten to the posts and stakes with wire staples. Tie twine to the wire above and the wire or twine below, wherever there is a plant. The vines will run up these until they reach the top wire, when they will care for themselves. Another way is to omit the bottom wire and stick small stakes 2 to 6 inches in the soil and fasten to the top wire. One quart to 150 hills, 10 to 16 quarts to an acre.

LAZY WIFE'S WHITE POLE
FOR CORN HILLS

The pods are produced in great abundance in large clusters and are from 4 to 5 inches in length. Dark green, rather flat but broad, quite thick, fleshy and entirely stringless, retaining their brittleness until fully developed; of unusually rich flavor. The dry Beans are pure white in color; excellent for winter use. Pkt. 10 cts., pt. 25 cts., qt. 40 cts., by mail, postpaid; by freight or express, qt. 25 cts., pk. $1.50.

J. H. Jacobs, Burnham, Pa., writes: "As to the Green Prolific Lima Beans, they are not yet fully matured, but are prolific bearers seem to be well filled and superior to some of the duller varieties."

J. W. Foster, Daretown, N. J., writes: "The Holmes' Green Prolific Lima Bean has done fine. First planting not many came up. I then planted in boxes and transplanted them and they are first rate—best crop I ever had."
POLE, or RUNNING BEANS, continued

OLD HOMESTEAD, or KENTUCKY WONDER

CORN HILL BEANS

This splendid variety, introduced in 1885, has since been offered as Seek-no-Further, and again in 1891 as a novelty called Old Homestead. Vine vigorous, climbing well and very productive, bearing its pods in large clusters; blossoms white; pods green, very long, often reaching 9 or 10 inches; are nearly round when young, and very crisp, becoming very irregular and spongy as the Beans ripen. Dry Beans long, oval, dun-colored. An early and very prolific sort, with short pods which are most excellent for snap. It is somewhat catalogued as being the same as Southern Prolific, but this is an error, as the latter is two weeks later and has shorter pods. Pkt. 10 cts., pt. 25 cts., qt. 40 cts., by mail, postpaid; by freight or express, qt. 25 cts., pk. $1.50.

WHITE CREASEBACK POLE

KNOWN IN SOME SECTIONS AS THE "FAT HORSE" BEAN

This is the earliest and possibly the best early green-podded pole Bean for snap shots. It is rapid in growth and very productive. Pods grow in clusters and are from 5 to 6 inches in length, perfectly round, being "saddle-backed." They are solid, fleshy, entirely stringless and of the finest quality. The dry Beans are pure white and excellent for winter use. Pt. 25 cts., qt. 40 cts., by mail, postpaid; by freight or express, qt. 25 cts., pk. $1.50.

BUSH LIMA BEANS

FORDHOOK BUSH LIMA

A stiffly erect bush form of the popular "Potato" Lima. The introducer describes this unique novelty as follows: Of strong, erect, true bush-like growth; the bushes average 20 to 30 inches high by 20 to 24 inches across the top.

Like Burpee's Bush Lima, the stems that produce the blossoms are thrown out from main stalks; the pods are borne in clusters of from four to eight and measure from 4 to 5 1/2 inches long, about 1 1/4 inches wide, by as much as three-quarters of an inch thick. The pods contain three to five large beans, and average four.

Fordhook Bush Lima is fully thirty-three and one-third per cent a heavier cropper and, therefore, is bound to displace the Kumerle (Dreer's or Thorburn's) Bush Lima. In season, it is from four to six days earlier. Pkt. 15 cts., 3/4 pt. 25 cts., pt. 45 cts., by mail, postpaid; by freight or express, pt. 30 cts., qt. 45 cts., 2 qts. 75 cts., 4 qts. $1.25, pk. $2.

Mrs. N. W. Campbell, Weyer's Cave, Va., writes: "I had splendid success with your Green Prolific Lima Beans—we had a very dry summer and fall, yet I picked three quarters from the sample packet sent me, and they indeed were fine; I shall plant more of them next spring and if they make as fine a showing will plant no others in the future."

THE NEW BURPEE-IMPROVED BUSH LIMA

Among earliest and largest of large Limas. The sturdy bushes are loaded with pods that are truly enormous in size. The Burpee-Improved is a distinct new creation. It differs from the best strains of Burpee's Bush Lima in having uniformly much larger pods, producing more Beans, while both pods and beans are considerably thicker. The stiffly erect upright bushes are more vigorous in growth, with heavier foliage. Full-grown bushes measure 30 inches in height and 24 inches across the top. Pkt. 15 cts., 3/4 pt. 25 cts., pt. 35 cts., by mail, postpaid; by freight or express, pt. 25 cts., qt. 45 cts., 2 qts. 75 cts., 4 qts. $1.25, pk. $2.25.

EXTRA-EARLY LIMA, TRUCKER'S DELIGHT

The green-shelled beans are of immense size, tender and succulent. In earliness, ease of shelling, size, beauty and quality of green beans, this variety is recognized as one of the best of all Limas for either garden or market. Pkt. 10 cts., pt. 25 cts., qt. 40 cts., postpaid; by freight or express, pt. 20 cts., qt. 30 cts., 4 qts. $1, pk. $1.85.

CORN SALAD

Large-leaved Fetticus, or Lamb's Lettuce. Hardy little plants, grown for late fall, winter and spring use; they form rosettes of tender edible leaves, which are used as a substitute for lettuce. Pkt. 5 cts., oz. 10 cts., 1/4 lb. 25 cts., lb. 75 cts.

Mr. Leonard Taylor, Jeffersonville, Pa., writes: "The Holmes' Green Prolific Lima Beans were all right—we had better success with them than with the home-raised."

COLLARDS

Georgia. A tall, loose substitute for cabbage, grown in the South. The leaves when cooked are tender and delicate. Pkt. 5 cts., oz. 15 cts., 1/2 lb. 35 cts., lb. $1.

Clarence S. Phillips, Danville, Pa., writes September 26, 1919: "I planted 175 hills with a quart of Green Prolific Lima Beans. Sold 115 quarts green beans at 15 to 20 cts. per quart—in all about $2.50, and am still picking."
## General List of All Beans

BEETS
Rübe Barbabietola Buraki

The specially new and good varieties of Beets are listed at length. Then the standard and well-known sorts, with which nearly every one is familiar, follow in a brief general list, arranged alphabetically for quick reference. If you want to know more than is given here about any variety, write us.

4 BEST BEETS FOR MARKET-GARDENERS

HOLMES

Extremely early, of perfect globe shape, and has extremely tender, blood-red flesh of finest quality. Our trials convince us that it is away above the average. Pkt. 10 cts., oz. 15 cts., 1/4 lb. 35 cts., lb. $1.25.

The sample of the New Beet, No. 27, was duly received and planted. It is the finest early blood Beet I have ever grown, coming in about the same time as the Harrisburg Market. It has an exceedingly short top, of good color and fine appearance, being very smooth, while it attains good size rapidly. It readily sells on the market on its own merits. Customers pick it up and buy it without asking any questions. It has a single tap-root."

(Signed)
G. W. HOUSER, Fort Hunter, Pa.

HOLMES' DEEP BLOOD TURNIP

Many of our market-gardening customers requested us to secure a Beet which comes early, is of deep blood color and has small tops. Here is a variety that, while not so early as the Harrisburg Market, has the color and texture desired. From trials made, it proves to be a fine deep blood Beet. Pkt. 5 cts., oz. 10 cts., 1/4 lb. 30 cts., lb. 60 cts., by mail, postpaid; 5 lbs. by express, $3.50.

HOLMES' EARLY SURPRISE

This extra-early Blood Turnip Beet has become wonderfully popular with both market-gardeners and home planters. It is a rich blood-red, with fine grain and delicious flavor. As good as the famous Harrisburg Market Beet. Valuable for market on account of earliness and size; for early or late planting. Pkt. 5 cts., oz. 10 cts., 1/4 lb. 30 cts., lb. 60 cts. by mail, postpaid; 5 lbs. by express, $3.50.

HARRISBURG MARKET BLOOD TURNIP

The Harrisburg Market Beet is true turnip-shape, has a single tap-root, a smooth skin, rich, tender flesh free from the woodiness so often found in early varieties. It is ready to use in 45 days from time of planting and has been considered the earliest and handsomest Beet to be had. Pkt. 5 cts., oz. 10 cts., 1/4 lb. 30 cts., lb. 60 cts., by mail, postpaid; 5 lbs. by express, $3.50.

Futter Rüben MANGEL-WURZELS AND SUGAR BEETS FOR STOCK FEEDING

**CULTURE.**—Sow in rows 2 feet apart and about 2 inches between seeds, thinning later to 12 or 15 inches. Long varieties are best suited to deep soil; round sorts succeed best in sandy soil. They make a heavy growth, and if large quantities are grown it is best to have the rows wide enough apart to use a horse in cultivation. Five or six pounds of seed will sow an acre.

**By mail, postpaid. Five pounds, freight or express, $1.25**

CARROTS Möhren Caroto Marchew

**CULTURE.**—A good, light, well-enriched sandy loam is the best for this crop. Market-gardeners sow in rows about 18 inches apart, and cultivate by hand. For field culture, sow in rows from 3 to 5 feet apart, so as to cultivate by horses. For early crops, cover one-half inch deep; for late, cover three-fourths of an inch. One ounce will sow 100 feet of drills; three pounds an acre.

# CELERY

**Sellerie Sedano**

**Selery**

**CULTURE.**—Sow the seed (which is slow to germinate) in shallow boxes, or in a finely prepared seed-bed out-of-doors, in straight rows, so that the small plants may be kept free from weeds. See to it that the seed is not covered too deep, and that the bed is kept moist, almost wet, until the seeds germinate. When about 2 inches high, thin out and transplant so they stand 3 inches apart, and when the plants are 4 inches high, cut off the tops, which will cause them to grow stocky.

The crop is usually made to succeed some earlier one, but, in order to grow good Celery, the soil must be made as rich as possible, the essentials to success being very rich soil and plenty of water. If good plants are used, they may be set out as late as the middle of August, but the best results are usually obtained from setting about the middle of June or the first of July. The most desirable time, is that which will bring plants to maturity, during cool, moist weather. In setting, prepare broad, shallow trenches about 6 inches deep and 4 to 6 feet apart, in which the plants should be set 6 inches apart, cutting off the outer leaves and pressing the soil firmly about the roots.

One ounce will sow nine square yards and produce 4,000 plants.

**Deduct 10 cts. per lb. from these prices if ordered by express or freight**

**MAGNIFICENT**

A very fine type of a late, long-keeping Celery. Our stock grown direct from the originator's seed. This Celery is an excellent market-garden variety, a good keeper of the very finest quality; very full hearted, solid, crisp, and when blanched is of a golden yellow color. Excellent keeper. We cannot recommend it too highly. **Pkt. 10 cts., oz. 50 cts., ¼ lb. $1.25, lb. $5.**

**NEW COLUMBIA**

A very early maturing sort, unsurpassed in shape and quality, very stocky and heavy. The stalks are thick, almost round, resembling those of the Giant Pascal. The color has more of the rich yellow tint of the Golden Yellow Self-blanching, which it resembles when trimmed and bunched for the market. Its quality is certainly fine, some connoisseurs considering it superior to any other variety. **Pkt. 10 cts., oz. 50 cts., ¼ lb. $1.75, lb. $6.**

**NEW SNOWHITE**

A pure white, self-blanching variety, introduced in 1902 after five years of careful selection and improvement. It is without a rival in purity of color. The originator says: "In the season of 1901, I set 3,000 plants and found only one green stalk, and, in 1902, 6,000 plants, and every stalk was pure white. It does well where others fail." E. J. Hollister, the noted Celery grower, and author of our book on Celery Growing, says: "The pearly whiteness of your Snowwhite Celery denotes good constitution, and together with the size, strength and number of the stalks, makes a perfect picture." In vigor of growth, ease of blanching, size, richness of flavor, crispness and purity, it is ideal. Single stalks sometimes weigh two and one-half pounds, and two pounds each is about the average run in a whole crop. It grows solid on all kinds of soil and keeps better than many standard varieties. (See illustration.) **Pkt. 10 cts., oz. 30 cts., ¼ lb. 75 cts., lb. $2.75.**

**CELERIAC (TURNIP-ROOTED CELERY)**

Knoll-Sellerie Sedano-ropa Brukwiana

Large turnip-like roots which keep well for winter use. Fine cooked, for flavoring soup or sliced and used as a salad.

**Large, Smooth Prague.** A highly developed and larger form, almost round, uniform, smooth-skinned and free from side roots. **Pkt. 10 cts., oz. 30 cts., ¼ lb. $1.**

**CHICORY**

**Cichorium intybus**

**Cicoria selenctica**

**Cukorya**

Large-rooted, or Coffee. The roots when dried, roasted and ground are largely used as an adulterant or substitute for coffee. The young leaves are excellent when used as a salad. Slice the roots and dry them in an apple evaporator, or it can be done in the old-fashioned home way. **Pkt. 5 cts., oz. 15 cts., ¼ lb. 35 cts., lb. $1.**
CABBAGE

Pure American-Grown Tested Seed

The specially new and good varieties of Cabbage are listed at length. Then the standard and well-known sorts, which nearly everyone is familiar with, follow in a briefer general list arranged alphabetically for quick reference. If you want to know more than is given here about any variety, write us.

For years we have given the selection of Cabbage Seed particular attention. There is no other crop on which the market-gardener depends so much for profits. We have selected only such varieties as are certain to be of great value to all growers. Our seed is from stocks carefully selected and tested on Long Island.

CULTURE.—In sections where the temperature never falls to 20 degrees below freezing point, seed may be sown in the open in October and transplanted to rows very early in spring; but in northern states we sow in hotbeds in February, or still better, from September 10 to 20, and winter the plants over in a coldframe. Transplant March 15 to April 15, about 20 inches apart each way, in rows 2 feet wide; this earliest crop matures in June. For second-early crop, to mature in July and August, sow seeds of early kinds early in April and plant out in May. For a late crop, to mature from September to December, sow late varieties early in May and plant out at once.

in July; the plants 2 and the rows 3 feet apart. Cabbages should be hoed every week, and the ground stirred as they advance in growth, drawing up a little earth each time until they begin to head; when they should be thoroughly cultivated and left to mature. Loosening the roots will sometimes retard the bursting of full-grown heads. Of late years many crops of early Cabbages have been destroyed by maggots at the roots. The best remedy seems to be to remove the earth from around the stem and apply kerosene emulsion. One ounce of seed will sow a bed of 40 feet and produce 2,000 plants.

HOLMES-Houser

This famous Cabbage, named and introduced by us nine years ago, has gained steadily in popular favor. Few other varieties can approach the Holmes-Houser in smallness of heart, keeping qualities, size, productiveness, solidity, flavor and fine grain. Original stock produces heads exactly as shown here, and it is remarkable what enormous crops grow. To keep this seed pure requires a great deal of attention in selection. To be certain of pure seed, we have contracted with the originator to grow stock seed for us yearly, for which we pay him about $50 per pound. This is sent to our very best grower on Long Island, where it undergoes the second selection. We get every grain of this seed, and if you want the pure and genuine stock buy it from us direct, or from some of our regular wholesale dealers to whom we sell the seed. It is very sweet flavored, has but few loose leaves, is good for shipping, retaining its original crispness and freshness.

A Warning. It is necessary to plant out the Holmes-Houser Cabbage two weeks earlier than any other late sort, as it requires this much longer to mature than the Flat Dutch types or any other late varieties.

Seed of our original selected stock, and procurable only from us or one of our wholesale dealers Pkt. 10 cts., oz. 40 cts., 1 1b. $1.35, lb. $4.50.

NEW LARGE HOLMES' EARLY

Three years ago, as number 138, we sent out samples of this new Cabbage. Before listing, we desired to get the sentiment of practical growers and test it out in every particular as to solidity, season, growth, ability to withstand dry weather and hot sun, do well in all soils in all parts of the country. It has been all we hoped it would be; in fact, from our own tests, and from reports received, it has far exceeded expectations. This new Cabbage combines two good qualities—large size and very early season. The heads are large, globe-shaped, almost as solid as the Holmes-Houser, finely ribbed, and of a yellownish green color. The plants produce very few outer leaves. The great weight of the heads, for an early variety, will make it one of the most desirable sorts for the market-gardener. Shipping long distances can be done with a less percentage of freight cost, as the weight is in small bulk. Resists the blight and drought. (See illustration.) Pkt. 10 cts., oz. 40 cts., 1 1b. $1.25, lb. $4.
CABBAGE, continued

DANISH BALLHEAD

This variety has few equals for winter use. It is highly prized in Denmark and is grown there almost exclusively for winter cabbage. The heads are round, 8 to 10 inches in diameter, and very solid, with few outer leaves. The seed we offer was grown by the originator in Denmark. Has the greatest weight in the smallest space. The quality is second to none. Pkt. 5 cts., oz. 25 cts., ½ lb. 75 cts., lb. $2.50.

DANISH RED STONEHEAD

Vigorous, hardy, sure heading; large and heavy—and, as it has a neat habit, requires small space and can be planted close together. The heads are solid, well shaped and of a dark red color clear through. Pkt. 10 cts., oz. 40 cts., ½ lb. $1.50, lb. $5.

DANISH ROUNDHEAD

An earlier, shorter-stemmed type of the famous “Danish Ballhead.” “Danish Roundhead” with less outer foliage is better able to resist blight, being, in most sections, as vigorous in growth as the best American types. The heads average larger and mature nearly two weeks earlier. The heads are unusually solid, and beautifully white when trimmed. They are splendid keepers when stored away for the late winter and spring, at which time the fine heads bring the highest market price. This, too, is a good variety to ship on account of heavy weight. Imported direct from Denmark. Pkt. 10 cts., oz. 25 cts., ½ lb. $1, lb. $5, postpaid.

Dear Sirs:—I received your seeds and am well pleased with them. I planted them and believe that every seed came up.—MRS. DAVID L. HARRAD, Big Dam, Pa.

SECOND-EARLY, or SUMMER VARIETIES

Early Summer. This peerless variety; it makes a large, solid, round, flat head, coming about ten days later than Wakefield.
Fottler's Improved Brunswick. Heads large, flat and solid; a sure header, long-standing; short stem.
Succession, Henderson's. Universally conceded to be the grandest Cabbage in existence for either summer or winter use; heads hard and uniform, ten to twelve pounds in weight, quality extra fine and a good keeper.

All Seasons (VanCergaw). One of the finest; growing to a large size quickly. Will stand hot sun and dry weather.
Fottler's Improved Flat Brunswick. Large, solid heads; fine for early or late. Considered by many gardeners as second to none of the second-early varieties.
Limited Mail. A superb second-early variety. Produces hard, pointed heads of good size. Often sold as Lightning, Express and several other fancy names.
Stein Early Flat Dutch. An excellent variety for winter use and valuable for market-gardening.

LATE, or WINTER VARIETIES

Autumn King, Henderson's. The acknowledged “King” of all Winter Cabbages, excepting only Holmes-Houser, producing enormous solid heads, weighing 25 to 35 pounds; interior crisp, fine-grained, white; splendid keeper.
Holmes Perfection Late Flat Dutch. Our improved highly bred strain of this old favorite. Winter Cabbage will be found very superior.
Short-Stem Drumhead. Selected strain; ripens early.
Red Dutch. For pickling.
Suredale. Fine large solid heads with few outside leaves.
Safe Crop. (Same as Houseman's Late Flat Dutch.) A good strain.
Flat Swedish. This is a new late very hard-headed Cabbage from Sweden. The plant is of extra-strong growth, with large bluish green leaves, and in good soil produces heads of enormous size. It has quite short stems, and its great solidly makes it a good winter keeper.
Perfection Drumhead Savoy. The largest heading Savoy; a general favorite for both home use and market-gardening.

Danish Red Stonehead

If ordered by express or freight, deduct 10 cts. per pound from prices quoted.
SWEET, or SUGAR CORN

Mais Kukurudza

CULTURE.—Sugar Corn requires a good soil and a warm situation. Begin for first-early by planting the earliest varieties about May 1, and for a continuous supply all summer make plantings about two weeks apart, from May 1 until late July, first planting early varieties, then later ones. Plant in rows 3 feet apart each way.

The specially new and good varieties of Sweet Corn are listed at length. Then the standard and well-known sorts, which nearly every one is familiar with, follow in a briefer general list arranged alphabetically for quick reference. If you want to know more than is given here about any variety, write us.

HOLMES' PREMO (Introduced by us in 1900)

One of the earliest and best Sweet Corns in existence. Named and introduced by us in 1900. The best seed can be had only from the introducers. Market-gardeners will make no mistake in planting this corn for a money crop. It is a success, not an experiment.

Up to 1910 it was the world's earliest corn, and not only this, but is also superior to nearly all in size, quality and yield. Must be planted fully as early as the Adams. The young plants stand light frosts, where the other varieties are tender, and the seed will not rot when planted before the soil becomes warm, or where long-continued rains follow planting. The stalks grow strongly high and generally bear two uniformly sized, fine appearing, well-developed and marketable ears, 7 to 9 inches long, to each stalk.

For years seedsmen over the country have been wanting a really first-class Sweet Corn that would come in with Adam's Early. Before introducing it, we secured a small quantity of this corn, and by actual test side by side with many other varieties, it has proved earlier by a week than all its companions.

Premo is of the best quality. It is tender, sweet, deliciously flavored, and the ears are well filled to the very tip. It is so early that there is a full crop at the time of the very highest price. The stalks, which grow very strong and stiff, and about five feet high, are free from smut and will grow in any soil, as well as resist drought and bad seasons generally to a very marked extent. Prices: Pkt. 10 cts., pt. 25 cts., qt. 35 cts., by mail, postpaid. By freight or express, qt. 25 cts., 4 qts. 85 cts., pk. $1.50.

HOLMES' SWEET DELICIOUS

A most delicious new and distinct variety. In home gardens, market gardens, and fields, Holmes' Delicious will set a new pace in Sweet Corn qualities. It is early—will grow ready for market in seventy-five days from planting. It is drought proof and does not smut. The stalks grow five to six feet high, and each one bears two or more marketable and well-developed ears, which are as large as those of Premo and have twelve rows of grains. Can be planted early before cold, wet weather is all past. Try it. It's a good one. Prices: Pkt. 15 cts., pt. 25 cts., qt. 45 cts., pk. $2.50.

HOLMES' TOP-NOTCH

Delicious flavor. Ears from 10 to 12 inches long

For several years we have been growing this variety. The Top-Notch strongly favors the Early Mammoth Corn and is much longer in the ears, measuring 11 inches, although Mr. Clark had a number of dried ears that he was saving for us from seed, which measured 12 inches long. The grains are rather deep, and, as one gardener pronounces it, "the most delicious Corn, for a late variety, I ever used." It comes in about the same season as the Early Evergreen, and is the largest and best Sweet Corn grown. Any one desiring Sugar Corn producing ears of immense size, delicious flavor and earlier than the Evergreen, will do well to give the Top-Notch a trial. Fodder good and strong, standing up well against storms and heavy rains. It comes in at the time when Sweet Corn brings its best price. Prices: Pkt. 10 cts., pt. 25 cts., qt. 40 cts., by mail, postpaid. By freight or express, qt. 20 cts., pk. $1.25.

WHITE EVERGREEN

A high-bred, ideal type of Stowell's Evergreen with all its points of merit. The stalks are of strong, vigorous growth, 6 to 9 feet high. The ears are very large and uniformly well-filled to the tip, as shown on illustration, and of a most delicious and sweet flavor. Market-gardeners and private planters can make no mistake whatever in using this variety. When in the green state, both cob and grains are pure white. Pkt. 10 cts., pt. 25 cts., qt. 35 cts., by mail, postpaid; by freight or express, qt. 25 cts., pk. $1.35.

Sweet Corn is one of our leading specialties. The sorts we offer are standard in every sense of the word and will thrive and succeed equal to any Corn grown for any soil and elevation in the United States.
General List of Sweet Corn

CAULIFLOWER

Blumenkohl Covolofoire Kalafiory

Our Cauliflower seed is produced by the most experienced growers in Europe.

**CULTURE.** For spring and early summer crop sow in March or early in April in hotbed; transplant to coldframe when sufficiently large, and to the open ground as soon as danger of hard freezing is over; after plants are set, put a little shell lime around each plant. For late crop sow at same time as for late cabbage and treat in like manner. Draw the leaves over and pin or tie them together to protect the heads after they begin to form. One ounce of seed will produce 1,000 plants and sow about 40 sq. feet.

**Deduct 10c. per lb. if ordered by express or freight at purchaser's expense.**

**DANISH GIANT, or DRY WEATHER**

Heads are pure white, large and solid. If given plenty of fertilizer and thorough cultivation, it will thrive in very dry localities—where others fail. This variety produces heads of superior quality. **Pkt. 20 cts., ¼ oz. 30 cts., oz. $1.50.**

**DELIVERED IN THE U. S. UNLESS NOTED**

CUCUMBERS

HOLMES' IMPROVED ARLINGTON WHITE SPINE

More largely grown than any other variety for both market and pickling. Comes early and is very productive; the fruit is of good size, straight and well formed, full at both ends; skin a deep green until maturity. The first fruit on the vines is unusually even in form and size. Pkt. 5 cts., oz. 15 cts., ½ lb. 35 cts., lb. $1.35.

HOLMES' PERFECT JERSEY PICKLE

After developing this strain for a number of years we now have the finest pickling strain grown. It produces more dark green pickles 2 to 5 inches long than any other we ever tested. The vines are strong, hardy, growers. The skin of the fruit is free from any toughness; allowed to grow to full size, they retain their dark green color and are excellent for slicing. Pkt. 5 cts., oz. 15 cts., ½ lb. 35 cts., lb. $1.25, by mail, postpaid.

CRESS

Water Cress. Highly esteemed as a salad in spring and fall. Also used as a garnish for meats in winter. Seed may be started rapidly in pans or boxes of very moist earth, and the young plants transplanted to shallow water along the banks of ponds or running streams, where it will grow very rapidly. Pkt. 5 cts., oz. 40 cts., ½ lb. $1.25, lb. $3.50.

DANDELION

Leaves make a fine early-spring salad. Cultivated sorts are larger and better flavored than those growing wild.

EGGPLANT

CULTURE.—Sow the seed in the hotbed about March 1, transplant to 4 inches apart, and when the plants grow thick, transplant to 8 inches apart. Set in the field about May 20. One ounce produces about 1,000 plants.

Black Beauty. An extra-early valuable variety for all growers. It is very early, in fact the earliest variety that grows to a good size, suitable for market purposes. Average weight, two to three pounds. Dwarf and bears fruit close to main stem. Pkt. 10 cts., oz. 35 cts., ½ lb. $1.25, lb. $4.

New York Improved Purple. An improved variety of Round Purple, of deeper color, larger size and finer quality. The plant is low, branching and spineless; the fruits are very large, perfectly formed, and produce 8 to 10 on a plant. It is at least two weeks earlier than the old sort. Pkt. 5 cts., oz. 30 cts., ½ lb. $1, lb. $3.50.
KOHLRABI (Turnip-rooted Cabbage)

Knollkohl  Cavolo rapa  Kolorapa

CULTURE.—Set plants 8 inches apart in rows. For later use, sow seed in rows and thin out. One ounce will sow a drill of about 200 feet.

Green, or White. Good for table and stock feeding. Pkt. 5 cts., oz. 15 cts., 1/4 lb. 35 cts., lb. $1.15.

Early White Vienna. Flesh white. Pkt. 5 cts., oz. 20 cts., 1/2 lb. 50 cts., lb. $1.75.

ENDIVE

indivia  Endywia  Endiven

CULTURE.—For early use, sow in May, scattering the seed thinly in rows 10 inches apart, covering it lightly. For succession all summer, plant as much later each time as you wish it to bear. It will do well till midsummer. An ounce of seed will sow a row of 150 feet.

HOLMEO'S WINTER GOLDEN HEART. New. Far superior to usual varieties listed, being a very fine and exceedingly hardy sort, producing large heads of finely curled, pure golden-yellow leaves. Pkt. 10 cts., oz. 25 cts., 1/4 lb. 75 cts., lb. $2.25, postpaid.

KALE, or BORECfoLE

Kale is more hardy than cabbage, and will endure considerable frost without injury. When cut frozen they should be immediately placed in cold water. They do not form heads like cabbage, but an abundance of pretty curly leaves. Cultivate like Cabbage. One ounce of seed will sow a drill about 200 feet.

Dwarf Green Curled Scotch. Dwarf; beautifully curled, bright green; very hardy. Pkt. 5 cts., oz. 10 cts., 1/4 lb. 30 cts., lb. 80 cts.

HOLMEO'S IMPROVED DWARF GERMAN. (American-grown.) Like the above except in color. Pkt. 5 cts., oz. 10 cts., 1/4 lb. 25 cts., lb. 75 cts.

LETTUCE

Koppolet  Lattich  Lattuga Salata

CULTURE.—For early crop, seed outdoors in September or transplant to coldframes as soon as large enough to handle, and winter like early cabbage. Sow in well-protected frames in February, and in hotbeds in March. By careful covering up at night make fine plants by April for spring planting. For home use, the simplest way is to sow thinly in rows a foot apart early in spring, and thin plants to stand a foot apart. Sow every two or three weeks from April 15 to August 15. Lettuce may be had in perfection the whole season. One ounce of seed will produce about 1,500 plants.

HOLMEO'S IMPROVED BIG BOSTON

A SELECTED STRAIN OF OUR OWN

About as near perfection as could be desired in a Lettuce. A popular variety with those gardeners who want a large-heading forcing sort, and also is more than just good for outdoor winter culture. The plants are large, very vigorous, with broad, comparatively smooth, thin and very hard leaves, which are bright, light green in color. Indoors this forms a solid head.

HOLMEO'S GIANT CRYSTAL HEAD

This exceeds by far every other variety in size and productiveness. Its keeping qualities and market properties in general are excellent. It is quite early, producing marketable heads in seven weeks from planting. In growth it resembles a large white cabbage variety, and its enormous productiveness is shown by the fact that one head equals three to five heads of other varieties. The heads remain crisp, fresh and delicious four to five weeks; in most cases producing no seed at all, careful slitting of the heads being necessary to obtain seed. Inside they are crystal white with a yellowish heart, of fine flavor, exceedingly crisp and tender, yet firm and heavy. Pkt. 5 cts., oz. 20 cts., 1/4 lb. 60 cts., lb. $2.

HOLMEO'S PERFECT

A fine all-round lettuce. It is an exceedingly quick grower, with handsome, buttery head and can be used for both early and late sowings. Also under glass is the finest heat-resisting variety we know of outside of, probably, Holmes' Zero. The inner leaves (practically the entire head) blanch to a rich golden yellow, and have a fine rich buttery flavor. It is an excellent shipper and a good keeper. See illustration. Pkt. 10 cts., oz. 40 cts., 1/4 lb. $1.50, lb. $5.
LETTUCE, continued

**HOLMES’ ZERO**

Hardy in winter weather as the winter Lettuce. Nasun, introduced a few years ago. Produces large, solid heads of a yellowish green color, being very crisp and of the most delicious flavor. Great value for market. **Pkt. 10 cts., oz. 20 cts., ¼ lb. 70 cts., lb. $2.50.**

**SALAMANDER**

Lettuces naturally thrive better during the cooler weather of spring and fall than in a torrid summer—the season when such crisp, cooling salad is most enjoyable and in greatest demand. A number of heat-resisting Lettuces have been developed. The leader, Salamander, forms good-sized, compact and tender heads, creamy white inside, rich buttery flavor; outer color light green; it remains long in head without running to seed. **Pkt. 5 cts., oz. 20 cts., ¼ lb. 50 cts., lb. $1.50.**

**HOLMES’ IMPROVED GRAND RAPIDS**

Almost Lettuce-perfection, being free from the rouges found in almost every stock grown. Does not form heads but makes large, compact bunches of light golden foliage, the leaves having finely curled or fringed edges. Delicious quality and handsome appearance make it most popular in many markets. **Pkt. 10 cts., oz. 20 cts., ¼ lb. 75 cts., lb. $2.50, postpaid.**

**IMPROVED HANSON**

Plant large, forming a large, flat head, resembling that of cabbage, and so slow to form a seed stalk that it often fails to seed at all. Outer leaves bright green, with prominent, light-colored veins; inner leaves white and usually curved and twisted at base; very tender and sweet. A standard summer heading lettuce. **Pkt. 5 cts., oz. 15 cts., ¼ lb. 40 cts., lb. $1.25.**

**DELIVERED FREE IN THE UNITED STATES, UNLESS OTHERWISE NOTED**

</table>

**CURLED, or CUTTING LETTUCE**

This type does not form compact heads, but large masses of curly, crisp leaves, which are practically everbearing, as they keep growing after picking; the best of these are:

- **Early Curled Simpson.** Forms a compact mass of yellowish green curly leaves; earlier than head Lettuces; largely grown in coldframes and the open ground. **Pkt. 5 cts., oz. 10 cts., ¼ lb. 25 cts., lb. $1.00.**
- **Black-seeded Simpson.** Large, loose heads; curly yellow leaves. **Pkt. 5 cts., oz. 10 cts., ¼ lb. 25 cts., lb. $1.00.**
- **Early Curled Silesia.** One of the best cutting varieties. **Pkt. 5 cts., oz. 10 cts., ¼ lb. 25 cts., lb. $1.00.**
- **Early Christmas.** Large, loose heads, stained with red curled. **Pkt. 5 cts., oz. 10 cts., ¼ lb. 25 cts., lb. $1.00.**
- **Tombannock.** An upright Lettuce; tinged brown. **Pkt. 5 cts., oz. 10 cts., ¼ lb. 25 cts., lb. $1.00.**
- **The Morse.** Light green; hardy. Superior to all. **Pkt. 5 cts., oz. 10 cts., ¼ lb. 25 cts., lb. $1.00.**
- **Paris White Cos.** A popular old variety. **Pkt. 5 cts., oz. 10 cts., ¼ lb. 25 cts., lb. $1.00.**

**LEEKES**

Cultivare. — Sow as early in spring as practicable, in rows a foot apart, and cover an inch deep. When 6 or 8 inches high, set 10 inches apart each way, as deep as possible. Ground can hardly be too rich. One ounce will sow 100 feet of drill.

- **Monstrous Carentan, or Scotch Champion.** Grows rapidly and is very hardy. The edible stem is 6 to 8 inches long and 3 inches in diameter. **Pkt. 5 cts., oz. 10 cts., ¼ lb. 30 cts., lb. $1.15.**

**Broad London Flag.** Hardy; of good quality; the whole plant is edible. **Pkt. 5 cts., oz. 10 cts., ¼ lb. 30 cts., lb. $1.15.**
MUSKMELONS

Melone  Popone  Melon

The specially new and good varieties of Muskmelons are listed at length. Then the standard and well-known sorts, which nearly everyone is familiar with, follow in a briefer general list arranged alphabetically for quick reference. If you want to know more than is given here about any variety, write us.

CULTURE.—Melons thrive best in a moderately enriched light soil; the hills should be 3 to 6 feet apart each way, according to the richness of the soil. Previous to planting, mix well with the soil in each hill a couple of shovelfuls of thoroughly rotted manure; plant 8 or 10 seeds in each hill early in May for latitude of Harrisburg (for south earlier, for further north later), and when well up thin out to three or four plants to the hill. One ounce for 60 hills; 2 to 3 pounds for an acre.

**PAUL ROSE, or PETOSKEY**

In this variety, which has gained great popularity, are combined all the good qualities of the Netted Gem and Osage, of which it is a cross. It is finely netted like the Gem, and averages about the same size; will outweigh a Netted Gem of equal size by at least a third. Flesh salmon-colored. Pkt. 5 cts., oz. 15 cts., ¼lb. 35 cts., lb. $1.25.

**BURRELL'S GEM**

Two facts about this Rocky Ford Melon will indicate its great value. Mr. Burrell, the introducer, from whom we get our seeds direct, sold $6,000 worth from 12 acres in 1909. The Fred Harvey eating-houses, diners, and hotels always specify them as their first choice. Their value is proved by those things. The golden colored netting is similar to that of Rocky Ford variety, making them very fine in appearance. The melon is smooth and very solid and will ship across the continent, as it is possibly the best keeper grown. The seed cavity is about the size of a teaspoon bowl, and an immense amount of the melon is pure meat. The flavor of Rocky Ford and Osage are blended in the spicy, sweet and golden flesh. An abundant crop is produced—often 20 to 30 melons from a hill, and each one weighing 2 or 2½ pounds. We get crates of melons shipped from the best growers in Colorado and elsewhere, from which to save seed. We are sure it is right. Pkt. 10 cts., 3 pkts. 25 cts., oz. 20 cts., ¼lb. 60 cts., ½lb. $1, lb. $1.75.

**NETTED GEM**

This is one of the most popular of small, or basket melons, and is shipped in large quantities from Colorado and Arizona. The fruit is oval, slightly ribbed, densely covered with fine netting and very uniform in shape and quality. Flesh thick, green, very sweet and highly flavored. Pkt. 5 cts., oz. 10 cts., ¼lb. 30 cts., lb. $1.

**EMERALD GEM**

A splendid variety. Fruit a convenient small or medium-sized, globular, or slightly flattened at the ends, only slightly netted and ribbed. Skin green tinged with yellow; flesh deep salmon-yellow, thick, ripening close to the rind and exceedingly high-flavored. Pkt. 5 cts., oz. 10 cts., ¼lb. 50 cts., lb. $1.75.

**ROCKY FORD**

The vines are healthy and vigorous, bearing an enormous quantity of fruits during the entire season. No melon has ever sold so readily and at such high prices as the Rocky Ford. It is of a rich, greenish gold; the netting is very prominent and is light in color, which makes the outer appearance very attractive. The flesh is very crisp and tender, very deep, ripening clear to the rind, extremely sweet and luscious flavor and it has a small seed cavity. Our seed was raised especially for us by a careful grower and is the best type of the genuine Rocky Ford Muskmelon. Pkt. 5 cts., oz. 10 cts., ¼lb. 25 cts., lb. 90 cts., by mail, postpaid.

Replying to your favor of the 5th inst., will say that the Green Prolific Lima Beans which I planted did remarkably well. They are a heavy cropper of fine flavor, and were the pride of my garden. I am unable to give you any dates of the time of planting, etc. Your Delicious Sweet Corn is certainly correctly named, the finest I ever tasted. I planted some about May 15 and it was ready for the table about Aug. 10, in about 100 days. I also wish to state that I have had good success with your Snowwhite Celery.—P. A. Ritter, Decatur, Ill.

WATERMELONS

Wasser Melone Meloni d'Aqua Melon Wodny

Cultivation—A rich, deep sandy loam, well worked and highly manured, is of the first importance. Plant, when all danger of frost is over, in hills 5 or 6 feet apart each way. Scatter a dozen seeds to a hill, and after they are out of danger from bugs, thin to three or four plants. When they have four or five rough shoots, pinch off the ends of the main shoots. One ounce will plant 30 hills; four to five pounds will plant an acre. Those using more than one pound of Watermelon seeds should write us for special prices.

HARRIS' EARLIEST

Cross of Kolb's Gem with Hungarian Honey, Coles Early and a Russian melon of very finest flavor. It is oval to oblong, striped with green and gray, has bright red flesh, sweet, tender and delicious; handsome appearance and fine quality. Is very productive, bearing July to frost. Weighs 20 to 30 pounds. Ships well. Pkt. 10 cts., oz. 20 cts., 1/4 lb. 50 cts., lb. $1.50, by mail, postpaid.

SWEETHEART

FERRY'S ICEBERG

Similar to Kolb's Gem but darker. Where the melon rests is rich yellow. Ships as well, but flesh is much deeper colored, tender and sweet nearly to rind. Pkt. 5 cts., oz. 10 cts., 1/4 lb. 25 cts., lb. 80 cts., postpaid.

McIVER SUGAR

Large, fine quality, oval—averaging 20 inches long. Broad stripings of light on dark red. Flesh pale pink, very crisp, no stringiness, sweet and melting. Pkt. 5 cts., oz. 10 cts., 1/4 lb. 20 cts., lb. 75 cts., postpaid. By express or freight, lb. 65 cts., 5 lbs. or more at 60 cts. per lb.

Kleckley Sweets Watermelon

KLECKLEY SWEETS

Finest melon for home growing and table use. Vines vigorous and fruit 18 to 20 inches through. Flesh bright scarlet, ripening close to rind, crisp sugary melting and entirely free from stringiness. Pkt. 5 cts., oz. 15 cts., 1/4 lb. 40 cts., lb. $1.

CHOICE ONIONS

Tested and of the Strongest Vitality. The Finest Selected Strains

We pride ourselves in supplying the very best onion seed that can be produced, and are now supplying some of the largest onion growers of the country. By sowing our seed, large onions may be produced direct.

CULTURE. — A crop of onions can be grown in any good soil, manuring for two years previously, if possible. With no crop is manure more essential, and it should be well rotted — to kill weed seeds for one reason. If rank fresh manure is used, it will result in many soft bulbs being produced; commercial fertilizer or a top dressing of wood ashes is also good. Clean up ground in time to complete the work before it freezes up, and spread the manure evenly, at the rate of 25 to 50 loads to the acre. This should be well mixed with the soil, and then the ground plowed a moderate depth.

Sowing the seed should be done as the ground can be got ready, and can be done best with a hand seed drill, carefully adjusted to sow the desired quantity of seed one-half inch deep. Thin seeding gives much larger onions than thick. Four or five pounds per acre is the usual quantity of seed needed to grow large onions. Just skim the ground as soon as they can be seen. Hoe again in a few days. At this weeding or the next, according to the size of plants, thin, leaving eight to twelve plants to the foot.

As soon as the tops die and fall the tops should be gathered into windrows. If the weather is fine they will need no attention while curing. Cut off the tops, when perfectly dry, about half an inch from the bulb. If perfectly dry when gathered, and they are spread not to exceed two feet in depth, they can be kept in fine condition until spring. Any arrangement will do that will keep them dry and at a uniform temperature of about 32 degrees F., care being taken not to disturb them. They should be thawed gradually. Repeated freezing and thawing will spoil them. An ounce of seed will sow a hundred feet of row; 5 pounds will sow an acre.

The specially new and good varieties of onions are listed at length. Then the standard and well-known sorts, which nearly everyone is familiar with, follow in a briefer general list arranged alphabetically for quick reference. If you want to know more than is given here about any variety, write us.

OHIO YELLOW GLOBE

Has uniformly fine shape, attractive color and yields largest crop of any yellow Onion. Globe-shaped with a somewhat flattened base. Bulbs are large and uniformly spherical, with very small necks, the largest diameter below the center of the bulb; of a rich orange-yellow color; mild flavor; enormous yielders and splendid keepers. Pkt. 10 cts., oz. 15 cts., ½ lb. 40 cts., lb. $1.25, postpaid.

SOUTHPORT RED GLOBE

Medium size, spherical, with small neck, very deep rich red color, and of superior quality. Pkt. 5 cts., oz. 20 cts., ¼ lb. 65 cts., lb. $2.25, postpaid.

SOUTHPORT WHITE GLOBE

Yields abundantly, producing handsome and uniform globe-shaped bulbs. The flesh is firm, fine-grained and of mild flavor. Sometimes called Southport White Globe. Pkt. 10 cts., oz. 25 cts., ¼ lb. 65 cts., lb. $2.25, postpaid.

WHITE PORTUGAL, or AMERICAN SILVER-SKIN

A medium-sized Onion of mild flavor; it is a good keeper and fine for fall and early winter use. Pkt. 10 cts., oz. 20 cts., ¼ lb. 60 cts., lb. $2.00, postpaid.

LARGE RED WETHERSFIELD

Large Red Wethersfield is a grand red variety producing enormous crops. With the exception of the Yellow Globe Danvers, there is no variety so largely grown. Our stock is excellent, being saved only from carefully selected bulbs and is quite free from necky and misshapen bulbs, and will invariably grow to a large size under proper conditions. It is an early variety to mature and a fine keeper. It is rich, dark red, solid, heavy and perfect; flavor is good and mild, fine for boiling. Pkt. 5 cts., oz. 15 cts., ¼ lb., 50 cts., lb. $1.50.

"I tried the Green Prolific Lima Beans, . . . and I consider it just about the finest Lima I ever grew. It has big bunches at one point, and five beans in a pod." — Morris E. R. Moyer, Olney, Pa.
CHOICE ONIONS, continued

AMERICAN-GROWN PRIZE-TAKER

The Prize-Taker Onion has now been several years on the market and is recognized as one of our best standard varieties. It succeeds everywhere—East, West, North and South—and whether grown for home use or for marketing gives universal satisfaction, yielding Onions weighing one pound the first year from seed and often 14 inches around, at the rate of 1,200 to 1,500 bushels per acre. Its immense size and mildness of flavor delight every one who raises it. Its keeping qualities are unexcelled. The exterior is pale yellow, and the interior clear, sparkling white. Nothing short of actual knowledge of this variety will convey a true idea of its great value, whether for market or home. It is easily grown, medium-early. Pkt. 10 cts., oz. 15 cts., 1/2 lb. 40 cts., lb. $1.50, 5 lbs. at $1.25 per lb. postpaid.

ROUND, or FLAT YELLOW DANYERS

As grown by us, this is a fine selected strain, combining extreme reliability in ripening with large yield. It is grown extensively for market ripening more surely in moist locations than do globe-shaped varieties, as well as earlier than they. It is becoming more popular also for growing Yellow Onion Sets. Our strain produces thin-necked flattened bulbs, yielding well in bulk. Pkt. 10 cts., oz. 15 cts., 1/2 lb. 35 cts., lb. $1.00.

SOUTHPORt GLOBE VARIETIES

These are the handsomest and largest of the American Onions, of almost perfect globe shape, heavy, solid and fine-grained; big yielders and keepers. Superior Connecticut-grown seed from perfect specimens.

1. Southport Yellow Globe. Thin skin; pale yellow and mild flesh

ITALIAN, BERMUDA AND PICKLING ONIONS

Adriatic Barletta. Very early; small, pure white with silver skin, flesh mild but firm; fine for pickling

Gigantia Gibralta. While the ripened bulbs are similar to those of the Prize-Taker in size and form, it is better adapted to growing in warm locations. Leaves are distinct from other varieties, being a deep green with a glossy surface, enabling it to withstand weather and the attacks of insect enemies. Fairly globular in form; thin skin of light straw color; flesh white, tender and mild

Silver King. White-skinned, white-fleshed Onions, of flattened shape, growing to an immense size

Queen. A very early, small, flat, white and mild pickle Onion

ONION SETS

All Onions attain full size and maturity the same season from spring-sown seed, yet many people desire to plant out sets for earliest Onions for the table or to use green or for bunching. The price per bushel is subject to change with the market; write for quotations.

Yellow Onion Sets. Grown from our select strain of Yellow Danyers. Qt. 30 cts., postpaid. Write for prices for larger quantities.

OKRA, or Gumbo

White Velvet. Large, round, smooth pods; never ridged; prolific. Pkt. 5 cts., oz. 10 cts., 1/4 lb. 25 cts., lb. 50 cts.

MUSTARD

Black or Brown. Large, succulent leaves, pleasantly pungent. Pkt. 5 cts., oz. 10 cts., 1/4 lb. 20 cts., lb. 50 cts.

White London. The leaves are generally used while quite young in salads and for garnishing. Successive sowings furnish a continuous supply. Oz. 15 cts., 1/4 lb. 15 cts., lb. 40 cts.

Giant Southern Curled. A favorite in the South, where it is sown in the fall for spring salad. Pkt. 5 cts., oz. 10 cts., 1/4 lb. 20 cts., lb. 50 cts.

NASTURTIUM, or INDIAN CRESS

The seed-pods, gathered green, are delicious pickled and used for seasoning like capers.

Tall, or Large. Climber; 10 feet high, ornamental flowers, large seeds. Pkt. 5 cts., oz. 10 cts., 1/4 lb. 25 cts., lb. 85 cts.

Dwarf. A trailer, requiring no support; smaller but more profuse. Pkt. 5 cts., oz. 10 cts., 1/4 lb. 25 cts., lb. 85 cts.

MUSHROOM SPAWN

Bricks only

In bricks only. Any one can grow it, the process is simple, and profits big. Write for pamphlet giving full instructions.

English. The culture of Mushrooms is easy if you plant fresh and thoroughly reliable spawn. They can be grown in the cellar, in sheds, hotbeds, or the open air. English spawn is best. It comes in bricks weighing about a pound each. A single brick will plant a bed 2 x 6 feet. Special prices will be quoted on lots of more than one hundred pounds. By mail, postpaid, one brick, 25c. By express, 25 lbs. $2.75, 50 lbs. $5.

A Field of Onions
PARSNIPS

CULUTRE.—Sow early in spring, in drills 15 inches apart and half an inch deep, in a rich soil; thin out to 6 inches apart in the rows. One ounce will sow 200 feet of drill; five to six pounds will sow an acre.

HOLMES' HOLLOW CROWN

Uniformly large and handsome roots of stocky form, heavy, well rounded, gradually tapering. Flesh white, of fine texture, free from core and stringiness, fine-flavored. May remain in the ground all winter, or dug in the fall and stored. Frost improves their quality. Pkt. 5 cts., oz. 10 cts., ¼ lb. 20 cts., lb. 55 cts.

MALTESE

The roots do not grow quite so long as the Hollow Crown, but are greater in diameter; they are very smooth and the flesh fine grain, of most excellent quality; skin ivory white. Pkt. 5 cts., oz. 15 cts., ¼ lb. 25 cts., lb. 75 cts., by mail, postpaid.

GUERNSEY

A half-long Parsnip. Flesh fine-grained; much sought for by market-gardeners because of its fine appearance. Pkt. 5 cts., oz. 10 cts., ¼ lb. 20 cts., lb. 55 cts.

PARSLEY

Petersile Prezzemolo Peitroska

Culture.—Soak seeds in water of twenty-four hours before planting. Three or four weeks sometimes elapse before it comes up. Sow thickly early, in rows 1 foot apart, cover half an inch deep; and finally thin to 5 or 6 inches apart, or transplant and cut back frequently. For winter use protect in a frame or light cellar.

HOLMES' IDEAL

Leaves ornamentally crimped; growth compressed and thick, almost a half-globe. Very robust growth, greatly improved by severe cutting. Stands heat, drought and cold; yields finely. Ideal in color and taste. Pkt. 10 cts., oz. 20 cts., ½ lb. 40 cts., lb. $1.25, by mail, postpaid.

PEPPER

Pfeffer Peperone Pieprz

Culture.—Sow in hotbed in April, and in warm, settled weather transplant outdoors 18 inches apart in rows 3 feet apart, or when all danger of frost is past, sow in open ground and thin. One ounce will produce about 2,000 plants.

NEW CHINESE GIANT

Strong, stocky growth, bushy, erect, growing 18 inches to 2 feet high, with abundant foliage. They are very prolific, setting three to four extra-large fruits at the base quite early, which ripen while a second crop is setting on the branches; the fruit sometimes weighs eighteen ounces. The fruit is (illustration herewith) square in appearance, while the flesh is thick and very mild, and entirely free from any fiery flavor. Pkt. 10 cts., oz. 40 cts., ¼ lb. $1.25, lb. $4.

NEW RUBY GIANT

Cross of Ruby King and Chinese Giant. Chinese Giant is the largest of all Peppers, but is rough and ungainly. New Ruby Giant, while quite large around, has the ideal long shape of the Ruby King. Vigorous in growth, mild and sweet as an apple, makes fine salad with tomatoes. Pkt. 10 cts., oz. 40 cts., ¼ lb. $1.25, lb. $4.25.

EARLY NEAPOLITAN

Fruits may be gathered the last of June, two weeks earlier than others, from seed sown early. Early fruits are by inches—later grow larger. Thick-meated, usually mild and sweet, and bright red. Plants sturdy, vigorous, frequently carrying 30 to 40 handsome fruits. Pkt. 10 cts., oz. 50 cts., ¼ lb. $1.35, lb. $4.75.
PEAS Erbsen Pisello Groch

CULTURE.—To grow for market, sow in single rows 1 inch apart and 2 to 3 inches deep, the rows from 2 to 4 feet apart. When grown in garden, sow in double rows 6 to 8 inches apart; tall sorts require brush. Begin sowing the extra-early varieties as soon as the ground can be worked in March; continue, for a succession, every two weeks until June. One quart will plant 100 feet of drill; 1½ bus. for an acre.

HOLMES’ PEDIGREE EXTRA-EARLY

Grown in the far North and with the selection of the earliest and choicest vines, this strain is so improved that it fully bears out our claim as one of the earliest, most prolific and even strains in existence, maturing so well together that sometimes a single picking will secure the entire crop. Vines vigorous and hardy, 2 to 2½ feet high, bearing abundantly. Market-gardeners will do well to give this new strain a trial. When this variety is planted exclusively, sowings should be made every week, to insure a constant supply. Pkt. 10 cts., pt. 25 cts., qt. 40 cts., postpaid by freight or express, qt. 25 cts., pk. $1.75.

NEW PEA, THOMAS LAXTON

A new variety, producing large pods in abundance. Delicious, matures as early as the extra-early smooth Peas, and, being a wrinkled sort, is much sweeter. Pkt. 10 cts., pt. 35 cts., qt. 60 cts., by mail, postpaid; by freight or express, qt. 50 cts., 4 qts., $1.50, pk. $2.75.

NEW PEA, GRADUS

ALSO CALLED EARLY TELEPHONE

From trials made at our grounds the Gradus ranks with any early variety. By actual test the Alaska and Holmes’ Market-Gardeners’ Extra-Early, known as the earliest Peas, alongside the Gradus came in only three days ahead. The variety is imported, having been raised by Thomas Laxton, brought from England. The vine has very heavy stems, and produces uniformly large pods, measuring 4 to 4½ inches, nearly round, and well filled with eight to ten large, handsome peas. In flavor and quality of the highest “marrow” type, melting and sugar, retaining when served, its bright, vivid green. A gentleman remarked, as he ate the Gradus Pea, that he never tasted anything to compare with them, and had no idea they were so fine. Pkt. 10 cts., pt. 35 cts., qt. 60 cts., by mail, postpaid; by freight or express, qt. 50 cts., 4 qts., $1.50, pk. $2.75.

PROLIFIC EARLY MARKET

This Pea is about four days later in maturing than our Market-Garden Extra Early, but it produces 30 to 50 per cent more Peas than any other early variety. Pods are about one-fourth to one-half longer than any of the extra-early types. Seed resembles the extra-early sorts but is somewhat wrinkled. The beauty of this particular Pea is that it comes in all at one time and can be cleaned up with one picking. Pkt. 10 cts., pt. 25 cts., qt. 45 cts., by mail, postpaid; by freight or express, qt. 30 cts., pk. $2.

SUTTON’S EXCELSIOR

New. Its great merit is that it is an early dwarf wrinkled Pea in the front rank for earliness, yet with much larger, handsomer pods than any other dwarf wrinkled. Similar in habit of growth to Nott’s Excelsior, which is one of the most popular. It holds the place in the Extra-Early class that is now so acceptably filled by Stratagem and Telephone in the later sorts. The height is about 12 to 14 inches, showing a great abundance of long, broad, straight pods of a pale green color. By mail, postpaid, ½ pt. 15 cts., pt. 30 cts., qt. 50 cts.; by freight or express, qt. 40 cts., 4 qts. $1.25, pk. $2.

NEW PEA, AMEEER

CALLED LARGE ALASKA IN THE SOUTH

Height 18 to 20 inches. Habit dwarf, stocky and vigorous, color dark green. The most robust grower we know of. It is an imported variety which tested out in our trials better than any other sort of its class. This Pea comes in about the same time as the Thomas Laxton, not so large but twice as prolific, just the Pea for the market or home gardener. Give it a trial. ½ pt. 15 cts., pt. 30 cts., qt. 50 cts., postpaid; by freight or express, qt. 40 cts., 4 qts. $1.25, pk. $2.25.
PEAS, continued

NEW LATE PEA, ALDERMAN

This fine Second-Early wrinkled Pea has proven in our trials to be a very valuable acquisition. We predict for it a place in every catalogue and, once in the hands of the gardener, the old Telephone and Duke of Albany will be forgotten. Vines vigorous growing, about 3½ feet high, with coarse, dark-colored leaves and producing an abundance of very large, dark green pods, filled with immense Peas of delicious flavor. A splendid shipper and we recommend this to all large Pea growers. ½ pt. 15 cts., pt. 30 cts., qt. 50 cts., postpaid; by freight or express, qt. 35 cts., 4 qts. $1.25, pk. $2.25.

NEW PEAS, HOLMES' MASTERPIECE

EXTRA-EARLY LARGE-PODDED

For several years we have watched the growth of a Pea in our trials which bids fair to average up with the famous Gradus, or Prosperity. We can now say we believe this to be one of the finest and most prolific large-podded Peas ever introduced. As is shown by the photograph, the pods contain 8 to 10 perfectly formed peas, and are of such large size that they sell on sight at market. ½ pt. 20 cts., pt. 35 cts., qt. 50 cts., by mail, postpaid; by freight or express, qt. 50 cts., 4 qts. $1.75, pk. $3.35.

NOTT'S EXCELSIOR

This Pea is so well known that it requires very little description. It is one of the sweetest Peas grown, very prolific, dwarf, and in the home garden we know of no small-podded pea that we can recommend more highly than this. Wherever grown it seems to thrive, and the best evidence of its popularity is in its increased use.

Fkt. 10 cts., ½ pt. 15 cts., pt. 30 cts., qt. 50 cts., by mail, postpaid; by freight or express, qt. 40 cts., 4 qts. $1.25, pk. $2.

NEW DWARF CHAMPION OF ENGLAND

Is a hardy, robust and vigorous grower of handsome green pods, and the quality is unsurpassed. Height of vine 26 inches, 68 days from planting. For a reliable staple market variety we believe it will fill a long-felt want.

Pkt. 10 cts., pt. 25 cts., qt. 40 cts., by mail postpaid; by freight or express, qt. 25 cts., 4 qts. $1, pk. $1.75.

SUGAR PEA, MAMMOTH LUCIOUS

Excels in size, productiveness and quality. Even to those who know how delicious and wholesome are Sugar Peas, cooked pods and all, a dish of these giant pods, sweet, sugary and melting, will be a delightful surprise. Vines average about 36 inches in height and remain a long time in bearing, and, when grown with brush or trellis, are strong and rank. The pods are gigantic in size, broad, sweet and tender, extremely fleshy, and equal to the best snap beans for cooking pods and all. The dry peas, when ripe, are extra large and wrinkled.

Pkt. 15 cts., ½ pt. 20 cts., pt. 35 cts., qt. 60 cts., by mail, postpaid; by freight or express, pt. 25 cts., qt. 50 cts., 4 qts. $1.75, pk. $3.

Morris E. R. Moyer, Oley, R. F. D. 3, Pa., writes: "The Green Prolific Lima Beans purchased of you last spring I consider the finest Lima Bean I have ever tried. Exceedingly prolific, there are bunches hanging at one point, each containing five beans."

R. B. Caples, Glasgow, Mo., writes: "Owing to the very cold and unfavorable spring, the Beans did not come up until late and only began bearing late in August; however, the vines are vigorous and are bearing large quantities of beans of splendid flavor."

Mr. Clarence S. Phillips, Danville, Pa., writes: "I purchased one quart of Holmes' Green Prolific Lima Beans and planted 175 poles, sold 135 quarts at 20c., 18c., and 15c. per quart, receiving about $11.50 cash—indeed, I am very well pleased with the Beans. After selling the quantity mentioned we are still picking a few for our table."

Mrs. John B. HERSHEY, Gordonville, Lancaster Co., Pa., R. F. D. No. 2, writes: "We planted your Lima Beans beginning of May, were ready for eating by middle of August. From one pack we had three quarts of dry Beans."
General List of Garden Peas

Liberal packets of any variety of peas, 10 cents each
One quart to 100 feet of drill; 2 to 3 bushels for an acre. Those prefixed with an * are wrinkled varieties

**DWARF EXTRA-EARLY PEAS.** Require no staking or brush

PUMPKINS

Melonen Kürbis
Zucca Bania

CULTURE.—Sow in good soil in May, in hills 8 to 10 feet apart each way; or in fields of corn about every fourth hill. Avoid planting near other vines. One ounce will plant 15 hills; one pound for an acre.

MAMMOTH GOLDEN CASHAW, or CROOKNECK

This splendid variety is of a rich golden-orange color, and grows to a large size. In its early stages it is dark green, ripening to a warm and rich color. The flesh is much thicker, sweeter and finer grained than in any other Pumpkin, and a deep rich yellow. For making pies this variety is superior, while for stock-feeding and keeping purposes it has no equal. Pkt. 5 cts., oz. 15 cts., ¼ lb. 30 cts., lb. 90 cts., 5 lbs., by express, $4.

JUMBO, or MAMMOTH POTIRON

No other Pumpkin ever introduced has reached such enormous weights, and been awarded so many prizes. Hundreds of our customers have raised specimens weighing over one hundred and fifty pounds each. It frequently attains a diameter of over 4 feet. The flesh and skin are golden yellow, and, notwithstanding its enormous size, it makes a good table Pumpkin. Pkt. 5 cts., oz. 20 cts., ¼ lb. 40 cts., lb. $1.50.

RADISHES

Radies Ravenollo
Rzodkiew

Our stock of Radishes are French-grown; being sown in beds and transplanted, we are positive of having straight sorts.

CULTURE.—Radishes delight in light, rich, mellow soil, and to be crisp and tender must make rapid growth. For very early use, sow in a gentle hotbed in January, and continue sowing every two weeks until September, in drills 10 inches apart, thinning plants to 2 inches apart. Sow winter Radishes in midsummer, and take up before severe frosts and store in sand or earth in a cool cellar. One ounce will sow 100 feet of drill; 10 pounds in drills will sow an acre.

WHITE STRASBURG SUMMER

This variety is now the most popular summer Radish. Both skin and flesh are pure white, almost transparent, and of a delightful pungent taste. It can be pulled five weeks from time of sowing, yet it will continue to grow without losing its fine quality and remains tender longer than any other summer sort. Pkt. 5 cts., oz. 10 cts., ¼ lb. 25 cts., lb. 85 cts., postpaid; by express, lb. 75 cts., 5 lbs. $3.

VICK'S EARLY SCARLET GLOBE

The roots of this variety are slightly olive-shaped, a rich, bright scarlet in color; flesh tender and white; fit to pull as early as Non Plus Ultra, but much larger when matured. We especially recommend this to gardeners whose market demands a large, first-early forcing Radish. Pkt. 5 cts., oz. 10 cts., ¼ lb. 25 cts., lb. 85 cts.

"Your seeds have proven very satisfactory. Next year will want more of them."
—J. L. GARMAN, Landisburg, Pa.
RADISHES, continued

**FELTON'S MODEL WHITE BOX**

Felton's Model possesses all the excellent qualities of the old Philadelphia White Box, but is superior in being much handsomer and earlier, with fewer and shorter leaves; hence it can be sown more thickly in the row, enabling the grower to raise one-third more Radishes in the same space. Pkt. 5c., oz. 10c., ¼ lb. 25c., lb. 75c., postpaid; 5 lbs., $3.25, by express.

**EARLY LONG SCARLET SHORT TOP IMPROVED**

This variety is a standard and excellent sort for private gardens or the market. The roots grow half out of the ground, are very uniform in shape, smooth and very bright red in color, and continue crisp and tender until fully matured, when they are about 6 inches long. This is the Radish grown so extensively in Petite Cote, Ontario, where the finest in America are produced. Pkt. 5 cts., oz. 10 cts., ¼ lb. 25 cts., lb. 75 cts.

**HOLMES' ROYAL RED FORCING**

Best for forcing in- or outdoors; quick grower; makes Radishes in three weeks. Globe-shaped, deep, red color, crisp and tender, tops small. The beautiful color and shape of this Radish make it a very attractive table relish. Pkt. 5 cts., oz. 10 cts., ¼ lb. 35 cts., lb. 90 cts.

**EARLY SCARLET TURNIP WHITE-TIPPED**

Handsome; little later than White-Tipped Forcing; will give entire satisfaction where extreme earliness and small top are not the chief consideration. Roots slightly flattened on the under side; color very deep scarlet with a distinct white tip; flesh white and of the best quality; fine flavored, crisp, juicy, solid, and with never a hint of pithiness. This is an excellent variety both for home and market purposes. Pkt. 5 cts., oz. 10 cts., ¼ lb. 25 cts., lb. 75 cts. postpaid.

**WHITE CHINESE, or CELESTIAL**

It is worthy of all the praise given it. Austin G. Rupp, Shiremanstown, Pa., has been growing this variety, and gets very high prices. So valuable did he consider it that for years he thought it policy not to tell his neighbors its name. The true stock of this variety is stump-rooted, and although a winter Radish, it can also be grown for late summer. The flesh is firm, solid and pure white, crisp and juicy, which is especially noticed very late, as it keeps all winter in prime condition, and is of mild flavor and very popular. Pkt. 5 cts., oz. 15 cts., ¼ lb. 25 cts., lb. 75 cts.

**NEW WHITE ICICLE**

**THE FINEST FLavored QUICK-GROWING RADISH NOW IN CULTIVATION.**

We have no hesitancy in saying it is one of the finest long white forcing Radishes known. The name is derived from the almost transparent whiteness of the root, which has no comparison among all existing Radishes. Leaves are short; taste is exceedingly fine. If well cultivated, Icicle produces its 3½- to 4-in., cylindrical roots within 22 days from date of sowing. This means the acme of crispness. We find that for successive planting Icicle succeeds as well in midsummer as when sown early; even in an advanced state it retains its fine flavor, never becoming woody. Pkt. 10 cts., oz. 15 cts., ¼ lb. 25 cts., lb. 75 cts., by mail, postpaid.

---

Mrs. Samuel H. Wissler, Lincoln, Pa., writes—"The grains of Holmes' Delicious Sweet Corn are a good size, and the flavor of this corn is finer and sweeter than any we tasted this summer." Note.—The description of this corn is on page 12. If you try it on your farm you will find, among other good things about it, that the seed will not rot when in the ground during a long siege of cold and wet weather.

# RHUBARB (Pie-Plant) Rhabarber

Spring-sown seed produces plants of good size to pull from the following spring; planting roots saves one year.

**Victoria.** A very large, thick, red-stalked late variety of fine quality.

Pkt. 5 cts., oz. 20 cts., 1/4lb. 40 cts., lb. $1.25.

# RHUBARB ROOTS

We can also supply young roots of this variety, which if planted in good soil early in the spring, will make a strong growth and yield stalks for market the following spring. Two roots for 30 cts., four roots for 50 cts., by mail, postpaid. Larger untrimmed roots will be sent by express at purchaser's expense. Prices in quantity will be quoted upon application.

# SPINACH Spinat

**CULTURE.** Plant in very rich ground. Sow in early spring in drills a foot apart, every two weeks for a succession, and thin out for use. For fall use, sow in August; for winter, in September. Cover with straw or leaves in winter. Varieties prefixed * may be sown in the fall for spring crop. One ounce will sow 100 feet of drill; 10 lbs. will sow an acre.

**LONG SEASON**

One of the notable advantages of this variety is the fact that it can be grown successfully in hot weather without going quickly to seed—a merit possessed by few others. The leaves are very dark green, and grow in a thick, rounded cluster; they are tender and succulent, of excellent quality when cooked. As a market variety, the Long Season is particularly good, as the leaves remain fresh and crisp for a considerable time after cutting. Pkt. 5 cts., oz. 10 cts., 1/4lb. 25 cts., lb. 60 cts.

**Thick-Leaved.** Produces large, thick, bright green crumpled leaves. Pkt. 5 cts., oz. 10 cts., 1/4lb. 15 cts., lb. 40 cts.

**Long Standing.** An excellent compact variety; thick, fleshy, dark green leaves; remains a long time fit to use before going to seed. Pkt. 5 cts., oz. 10 cts., 1/4lb. 15 cts., lb. 35 cts.

*Bloomsdale, or Norfolk Savoy. For fall planting; fleshy, curled and hardy. Pkt. 5 cts., oz. 10 cts., 1/4lb. 15 cts., lb. 35 cts.

**Victoria.** Very heavy, broad, deep green leaves; crumpled. Pkt. 5 cts., oz. 10 cts., 1/4lb. 15 cts., lb. 40 cts

**New Zealand.** Produces leaves in abundance throughout the summer. Fine appearing; also never cooks stringy. Pkt. 5 cts., oz. 10 cts., 1/4lb. 30 cts., lb. $1.

---

**Holmes Seed Company, Harrisburg, Pa.**

*Dear Sirs:* Please send me your 1910 Illustrated Seed Catalogue. I will have a garden this year and wish to select my seeds from you, as they have been recommended to me as the best growing and most satisfactory seeds ever grown. I have used vegetables grown from your seeds and will admit that they are delicious. Very sincerely yours,

Chas. M. Lawson.
SQUASHES

IMPROVED HUBBARD

A superior variety, and one of the best winter Squashes; flesh bright orange-yellow, fine-grained, very dry, sweet and rich flavored; keeps well through the winter; boils or bakes exceedingly dry. Our stock is most carefully selected with regard to quality of the flesh, color and warriness of the shell, but the latter peculiarities are largely determined by the soils in which the Squashes are raised. We have compared our stock with that sold as Chicago, or Warty Hubbard, and have found it much superior. Resemblance in names causes trouble. Be sure you get the right Squash. Pkt. 5 cts., oz. 15 cts., $1/4 lb. 30 cts., lb. $1, postpaid.

MAMMOTH YELLOW SUMMER CROOKNECK

Vine larger and stronger-growing than the Summer Crookneck and producing fruit fully twice as large, deeper colored and with rough surface. Its large size and attractive color make it a favorite with market-gardeners. Pkt. 5 cts., oz. 10 cts., $1/4 lb. 25 cts., lb. 90 cts., postpaid.

GOLDEN HUBBARD

A true Hubbard Squash, except in color, which is a bright red. The vine is a vigorous but not rampant grower and wonderfully productive, expending the energy derived from liberal fertilizing in the production of an increased number rather than overgrown and coarse fruits. The fruits are very uniform in size, weighing from six to eight pounds. Although in condition for use much earlier, can be held over in good condition for spring use. Shell is warty, hard and strong. The flesh is a deep orange and uniformly so to the shell, never having the green tinge so objectionable in the older sort. It cooks very dry, fine-grained and good flavored. Pkt. 5 cts., oz. 10 cts., $1/4 lb. 30 cts., lb. 90 cts., postpaid.

MAMMOTH WHITE BUSH SCALLOP

Many seedsmen have listed Mammoth White Bush Scallop Squash, but until we sent out our stock in 1895, there was no uniformly large, clear white, scalloped Squash in trade. The fruit is a beautiful, clear waxy white instead of the yellowish white so often seen in the old Early White Bush Scallop Squash, and is superior to that variety in size and beauty. The handsomest of the scalloped Squashes. Pkt. 5 cts., oz. 10 cts., $1/4 lb. 25 cts., lb. 75 cts., postpaid.

BOSTON MARROW

A fall and winter variety; large size, oval form; skin thin; when ripe, bright orange, with a netting of light cream-color, flesh rich salmon-yellow; fine-grained and of excellent flavor, but not as dry as the Hubbard. We have an unusually good stock of this sort. Pkt. 5 cts., oz. 10 cts., $1/4 lb. 25 cts., lb. 75 cts., postpaid.

</tr>
</tbody>
</table>

AUTUMN AND WINTER

Delicious (Gregory). This is the result of years of selection, primarily for quality. The introducer claims that it excels any in flavor, which we fully endorse after a table test. Pkt. 5 cts., oz. 10 cts., $1/4 lb. 25 cts., lb. 75 cts., postpaid.

Large-Warted Hubbard. A new strain of larger size, increased productiveness, and a hard, green, warty shell, rendering it the best keeper of all. Pkt. 5 cts., oz. 10 cts., $1/4 lb. 25 cts., lb. 75 cts., postpaid.

SALSIFY (Vegetable Oyster)

Haferwurzel Sassefricu Jarzynowa

Culture.—It succeeds best in a light, well-enriched soil, which should be stirred to a good depth. Coarse and fresh manure should be avoided, as it will surely cause the roots to grow uneven and ill-shaped. Sow early and quite deep, giving the general culture recommended for parsnips. The roots are perfectly hardy and may remain out all winter, but should be dug early in the spring, as they deteriorate rapidly after growth commences. Store a quantity for winter use in a pit, or in a cellar, packed in damp earth or sand. One ounce for 75 feet of drill.

The long, white, tapering root of Salsify when cooked forms a good substitute for oysters, having a very similar flavor. It is usually cooked with cream or butter, boiled or fried, and also is used in soup. By many it is considered the most delicious of winter vegetables, because of its sweet flavor, and because it is very nutritious.

Large White. The common variety; roots medium-sized, smooth, flesh white. In certain sections we find this variety used to prepare wonderfully delicious dishes. Pkt. 5 cts., oz. 10 cts., 2 ozs. 15 cts., $1/4 lb. 25 cts., lb. 90 cts.

Mammoth Sandwich Island. This is larger, stronger-growing and less liable to branch than the Large White. It is an invaluable sort for market-gardeners' use. Pkt. 5 cts., oz. 10 cts., $1/4 lb. 30 cts., lb. $1.
TOMATOES

Liebesapfel  Pomo d'Ora  Pomidor

All our Tomato seeds are from seed stocks carefully selected. We challenge comparison with any offered.

CULTURE.—Tomatoes do best on light, warm, not over-rich soil, and success depends upon securing a rapid, vigorous and unchecked growth during the early part of the season. Sow in hotbeds from six to eight weeks before they can be set out-of-doors, which is when danger from frost is past; when the plants have four leaves transplant into shallow boxes or coldframes, setting them 4 or 5 inches apart; give plenty of air and endeavor to secure a vigorous, but steady and healthy growth, so that at the time of setting in the open ground they will be strong and stocky. Even a slight check while the plants are small will materially diminish their productiveness. Set out-of-doors as soon as danger from frost is over, but before doing so harden off the plants by gradually exposing them to the night air and by withdrawal of the water until the wood becomes hard and the leaves thick and are of a dark green color. Transplant carefully and cultivate well as long as the vines will permit. The fruit will be better in quality if the vines are tied to trellis or stakes. 1 oz. for 1,500 plants; ½ lb. for an acre.

LIVINGSTON'S NEW GLOBE

Of beautiful globe shape, with quite a percentage of elongated (stem to blossom) fruits, which permits of a greater number of slices being taken than with flat sorts. Among the very first to ripen, although of large size, very smooth, firm-fleshed, few seeds, ripens evenly; color a beautiful glossy rose, tinged purple. Flavor very delicate and agreeable; splendid slicing variety. The fruit is borne on short-jointed, branching plants in great abundance—a good general cropper, and one of the very best for greenhouse growing or first-early crop on stakes or trellis. Pkt. 10 cts., oz. 25 cts., ½ lb. 75 cts., lb. $2.75.

SPARK'S EARLIANA,

This Tomato is remarkable not only for its earliness, but for its very large size, handsome shape and bright red color. Its solidity and fine quality are quite equal to the best medium and late sorts. From less than 4,000 hills Mr. Sparks realized from his first plantings $7,25, in cash, and commissions. Pkt. 10 cts., oz. 25 cts., ½ lb. 75 cts., lb. $2.75.

MATCHLESS

In beauty of coloring and symmetry of form, Matchless indeed ranks high. The vines are of a strong, vigorous growth, well set with fruit. The foliage is very rich dark green in color. Fruit is of large size all season, smooth, handsome, marketable, entirely free from core, of a rich cardinal-red color, and not liable to crack from wet weather. Ripe specimens will keep good in condition for two weeks. Pkt. 5 cts., oz. 25 cts., ½ lb. 75 cts., lb. $2.50.

STONE

This is the heaviest and most solid fruited of the large Tomatoes of good quality. Our stock is distinctively superior to most of that offered under this name, being more uniform, better colored and larger. Vines vigorous and productive. Fruit round, apple-shaped, very large, very deep red in color and astonishingly heavy. Pkt. 5 cts., oz. 20 cts., ½ lb. 60 cts., lb. $2.25.

LIVINGSTON'S DWARF STONE

Resembles Livingston's Stone in color, shape and what is remarkable for an erect sort, it is practically of uniform size. Ten fruits picked from one vine at same time weighed five pounds, three ounces. This was under field cultivation on farm land, with no fertilizer. Specimens weighing one pound are common. It is fully as prolific, and consequently vastly more productive and equally as early as New Dwarf Stone. Especially good for the class of growers whose gardening is limited to a few acres, and where economy in space must be taken into account. Pkt. 10 cts., oz. 35 cts., ½ lb. 75 cts., lb. $2.75, postpaid.

CHALK'S EARLY JEWEL

The fruits are uniformly large and thick through, very solid and of fine quality. The plants are very productive, and it is one of the best Tomatoes for main crop. Specimens will measure 3½ inches across by nearly 3 inches in depth. Color brightest scarlet, ripening right up to the stem. The foliage is rather open, admitting the sunlight to the center of each plant, so that all the fruits are thoroughly ripened; flesh is bright scarlet, very solid with comparatively few seeds, and of fine, sweet flavor; skin thin, but sufficiently strong to ship well. Pkt. 10 cts., oz. 35 cts., ½ lb. $1, lb. $3.75, postpaid.

Holmes Seed Company, Harrisburg, Pa.

Gentlemen: You will find order for seed which you will please ship to me by return mail. I have been using your seeds for five years. They are superior to any I can get. (Accompanied order sent in March 12, 1910.)

Yours respectfully,

Dr. Wm. Fox.
HOLMES’ TESTED SEEDS OF KNOWN VITALITY AND PURITY

TOMATOES, continued

CRINE’S JUNE PINK
An extra-early Tomato, coming in with Earliana, which is of the bright purplish pink known as “Acme Color,” so much preferred in some sections to scarlet. The fruit is round, very uniform in shape and size, is about 3 inches in diameter and almost round, and is borne in clusters. The flesh is remarkably solid and contains but few seeds. It is finely flavored and free from acidity. Although an extra-early, the plants continue to grow and fruit fairly well through the season, making it a good general-purpose variety. Its smooth, even form can be appreciated by those who slice or pare it. Pkt. 10 cts., oz. 50 cts., ¼ lb. $1.50, lb. $5.

HOLMES’ EARLY WONDER (New)
A bright red, large and perfectly smooth Tomato, coming in about the same time as the Earliana, but somewhat larger in size and considerably smoother, having very small seed cavities and plenty of meat, ripening entirely to the stem. We believe this to be one of the best varieties grown today for the market-gardener as well as for home-gardener. This Tomato will give you more bushels to the acre than any other variety we know of. The seed is extra large and plump, which makes it easy strained out from the flesh when canning, etc., and seeds are not wanted, starting strong, vigorous plants. Pkt. 15 cts., 2 pkts. 25 cts., ½ oz. 60 cts., oz. 1, 2 ozs. $1.75, ½ lb. $3.

TABLE TURNIPS

In fall and winter, stock need Turnips and Rutabagas to keep them in good condition. We cannot too earnestly recommend farmers to increase their sowings largely. There are a great many varieties, but our list comprises the best for the garden or farm.

Culture.—Sow half an inch deep in rows about two feet apart or sow broadcast. Be sure to have the ground rich and freshly stirred. Be careful to weed and thin out, so the young plants will not be checked and injured. Any overcrowding will result in rough and poorly flavored roots. Get the spring and summer crops started very early. Hot weather causes them to become rough and bitter. In the middle and western states sow for fall and main crop from middle of July to last of August. Best results are obtained by drill culture. To preserve Turnips in good order for winter, store in a cool cellar and cover with sand or turf or put them in a pit where there will be no danger of water standing and cover with straw overlaid with earth sufficiently deep to keep out frost. One ounce for 100 feet of drill; 2 pounds to the acre.

EXTRA-EARLY PURPLE TOP MILAN

Similar to the White Milan, except that the roots are a little flatter and a beautiful purple-red on the upper portion. All in all, these Milan Turnips leave little more to be desired in the way of an extra-early garden Turnip. Pkt. 5 cts., oz. 10 cts., ¼ lb. 20 cts., lb. 75 cts.

PURPLE TOP WHITE GLOBE

Globular and nearly as large as the Pomeranian White Globe, of beautiful appearance and the white flesh is most excellent, equally desirable for table or stock. It keeps well and is a fine market sort. Pkt. 5 cts., oz. 10 cts., ¼ lb. 25 cts., lb. 80 cts.

COW HORN, or LONG WHITE

Pure white, except a little shade of green at the top. Carrots in form, growing nearly half the ground and slightly crooked. It is delicate and well flavored, of very rapid growth, and has obtained considerable favor as a market sort for fall and early winter use. Also for turning under. Pkt. 5 cts., oz. 10 cts., ¼ lb. 25 cts., lb. 75 cts.

EARLY PURPLE TOP STRAP LEAVED

Early and a great favorite for table use; form flat, thicker, medium size; color purple or dark red above ground, white below; flesh white, fine grained and tender; leaves few, entire, upright in growth. Pkt. 5 cts., oz. 10 cts., ¼ lb. 20 cts., lb. 50 cts.
SWEET, POT AND MEDICINAL HERB SEEDS

No garden is complete without a few Herbs for culinary or medicinal purposes. These should be harvested on a dry day, just before they come into full bloom, then dried quickly and packed closely, excluding the air.

Anise (Grüner anis). For garnishing, cordials and flavoring. Pkt. 5cts., oz. 20 cts.

Balm (Citronen Melisse). For tea and balm wine; useful in fevers. Pkt. 5 cts., oz. 20 cts.

Basil, Sweet (Basilikum). The leaves and tops of the shoots are used for highly seasoned soups, stews and sauces: a leaf or two is sometimes placed in salads. Pkt. 5 cts., oz. 20 cts.

Caraway (Feld Knüdel). The aromatic seeds are used in confectionery, cakes and medicine. Pkt. 5 cts., oz. 20 cts.

Castor Oil Plant (Ricinus Communis). This seed yields castor oil. Pkt. 5 cts., oz. 15 cts., 3/4 lb. 30 cts., lb. 80 cts.

Coriander. For garnishing, the seeds are aromatic; used for flavoring. Pkt. 5 cts., oz. 20 cts.

Dill. The aromatic seeds are used in pickles, preserves, soups, sauces. Pkt. 5 cts., oz. 10 cts., 3/4 lb. 25 cts., lb. 60 cts.

Fennel (Fenchel). The leaves boiled into many fish sauces, and are beautiful for garnishing; the seeds are em-

Purple Top White Globe Turnip

HOLMES’ SPECIAL GRASS MIXTURE

For Permanent Pasture and Hay

Our famous mixture is becoming more generally used each season by progressive and successful farmers who desire permanent pasture. Its formula is based upon years of successful experience. It thrives well on all soils and is not seriously affected by the different climatic conditions. Not only pasturing well, it can be cut for hay and will make excellent grazing afterward. If not pastured it will produce two heavy crops of hay in a season, doing better than timothy. By all means plow up and seed those old and worn fields; you can soon be cutting heavy crops from Holmes’ Permanent Pasture Mixture. Sow 50 pounds to an acre. In ordering state whether for light or heavy soil. Should you desire a Special Mixture for renewing old pastures, etc., write us and we will give information. Lb. 25 cts., by mail, 25c.; bus. of 15 lbs. $2.50, bus. of 20 lbs. $3.50, 100 lbs. $15.

HOLMES’ SUPERIOR RE-CLEANED CLOVER SEEDS

ALSIKE, or HYBRID CLOVER

The hardest of all; sometimes called Giant White Clover. It is adapted for permanent pastures or for hay crop. Never heaves or throws in the winter; thrives equally well on wet or dry soil, through extreme droughts or excessive rains. Blossom-heads round, flesh-colored, sweet and fragrant, much liked by bees. Sow 10 to 20 pounds per acre in spring or fall. May be sown with Red or Mammoth, tends to insure good stands and better crops than sowing alone. Lb. 25 cts., postpaid. Prices on all Clovers fluctuate, write for prices in quantity.

RED MEDIUM

Common Red Clover. We shall be pleased to quote prices.

The Clovers as Soil Improvers. Like all leguminous plants, the Clovers largely draw nitrogen from the air for their sustenance. Their roots penetrate deeply, drawing from the subsoil; much of this plant nutrient is left in the soil. A Clover crop will leave a field 25 per cent more productive than it found it. Clover, intelligently used, is the farmer’s best friend. It not only furnishes most nutritious feed, but builds up worn-out lands cheaply in a rotation of crops.

Crimson, or Scarlet Clover

For description, see page 36.

Alfalfa, or Lucerne Clover

Alfalfa gives more cuttings and a larger tonnage to the acre than any other clover. This is the great Clover of the West which is now coming into prominence in the East. Sown in fall during September, cuttings commence as soon as it attains a fair growth, before it comes into bloom. With anything like seasonal weather it will give two or three cuttings throughout the first year. Alfalfa will not succeed on wet soils. The roots are very long, penetrating the ground until they strike water, making it extremely valuable in dry seasons.

Sainfoin (Hedysarum biforme)

A valuable perennial for the southern states; quite hardy after it becomes established. It has strong deeply branching roots, and will succeed in very dry soils, sand, and even in gravel. Sow 2 to 3 bushels per acre. Bushel weighs about 25 pounds. Lb. 50 cts., postpaid; by express or freight, lb. 15 cts., bushel of about 60 lbs. about $11. Write for prices.

Better ask for cultural book complete before sowing. As a good stand lasts as long as an apple tree, it is important to start it exactly right.

Special Grass and Clover Mixture for Various Uses

We have requests from our customers to put up mixtures to suit their needs, for shady places, golf course mixtures, terraces and steep slopes, putting greens, or for soils in which certain peculiar conditions exist. We are headquarters for lawn mixtures and can fit any sort of land. We shall be pleased to quote prices on any special mixtures, also give any information desired.
HOLMES' EXTRA-SELECTED FARM SEEDS

Fully realizing the great importance of supplying the farmer with the highest quality of Farm Seeds, we have given this branch of our business special study, exercising the greatest care in growing and securing seed of the highest standard in purity and quality—fully matured, plump, sound, fresh and clean. The care exercised in selecting our seeds has given Holmes' Field Seeds an enviable reputation, and today our house is recognized as headquarters for the most reliable field and grass seeds. For Insecticides and Weed Killers see page 63.

Holmes' Thoroughbred Field Corn

Our seed is well cured and true to name. It pays to renew your seed stock of Field Corn. Do not inbreed. It will cut down your yield and you will not know why. Varieties offered have all been grown from finest selected stock seed which was picked in the field. Long grains, small cob, long ear, well-filled tip, well-filled butt, grains uniform from end to end of cob, vigorous stalks, two and three perfect ears to each stalk, ears borne high above the ground—these are some of the important things to watch in getting seed corn, and in order to be sure about them all the ears have to be picked while the corn is growing. Even the stalks from which seed ears are pulled should be carefully chosen, because of superior form and growth. All of our seed is planted, grown, harvested and raised with these things in mind, and practiced, and it is good seed in every way.

Holmes' Early Golden Surprise 90-DAY FIELD CORN

GROWN BY THE ORIGINATOR

Incomparable in solidity, uniformity, development of the tip and butt, extraordinary yield, universal satisfaction. Its vitality is so great that neither wet nor dry weather noticeably influences its growth and maturity. Produces a great quantity of superior quality shelled corn on account of extreme smallness of cob and depth of grain. Cobs may be encased in an ordinary finger ring, as illustrated. Rich golden color. 35 pounds of ears produced 31½ pounds of shelled corn. Vigorous grower, with short, strong stocks and an abundance of foliage, which makes excellent fodder. It matures uniformly in 90 days from planting. Large pkt., by mail, postpaid, 10 cts., lb. 30 cts., 3 lbs. 70 cts.; by freight or express, not prepaid, qt. 15 cts., pk. 75 cts., ½ bus. $1.25, bus. $2.25. Prices subject to change without notice.

IMPROVED MASTODON

One of the largest-seared varieties of early Dent Corn, and has largest grains. Nothing surpasses it in number of rows on cob, and in depth of grain. It makes fine-looking shelled Corn. This corn was ripened in 110 days within eight miles of Lake Erie. Qt. 15 cts., 4 qts. 40c., pk. 75 cts., bus. $2.

Iowa Gold Mine. Ears are not excessively large, but of good size. Color a bright golden yellow. Grain deep, cob small and dries out nearly as soon as it ripens. Qt. 15 cts., 4 qts. 35 cts., pk. 60 cts., bus. $2.

J. W. Foster, of Daretown, N.J., writes: "Your letter received; in answer would say the Holmes Prolific Lima Bean has done fine. First planting not many came up; I then planted in boxes and transplanted them and they are first rate, best crop I ever had."

Mrs. N. W. Campbell, Weyer's Cave, Va., R. F. D. No. 2, Box 8, writes: "Your letter received asking about may success with the Green Prolific Lima Bean. I think they did splendid. We have had a very dry summer and fall and out of the sample package I picked three quarts and they are very fine."

Your Particular Attention is directed to Long's Storm King Oats. It is, beyond a doubt, the finest oats which can be grown in United States in matter of plant, yield, weight, straw and adaption to any soil. It was brought direct from Tartary, which is the home of oats. We heard about it there, and saw the first seed brought here. This we watched growing—noting the effect of many different soils, of hard storms, and of dry weather on it,—and saw that here was a prize for our farmers. There is but a few hundred bushels of seed in United States, and all has been secured for our customers. If the description gives all the information needed, will be glad to fill your order at once. If you want to know anything else about this oats, we want you to write to us, or come to see us. Samples mailed on application.
FIELD CORN, continued

GOLD STANDARD LEAMING

We have increased the size of ears and percentage of grain by breeding from the original J. S. Leaming Corn; also depth and roughness of kernel, and feeding value by increase of protein and fat. The ears range from 9 to 11 inches long, 7½ to 8 inches in circumference, weighing 12 to 17 ounces. The stalks range from 9 to 12 feet in height, are well developed below the ear and slender above. They are very valuable for ensilage, and thrive well on soils where many other varieties fail. It is an immense yielder. Qt. 15 cts., 4 qts. 35 cts., pk. 60 cts., bus. $2.

Reid's Yellow Dent. The ears are large and deep-grained. Color a deep yellow. Generally produces two ears to a stalk. Qt. 15 cts., 4 qts. 35 cts., pk. 60 cts., bus. $2.

Golden Beauty. Large, broad grain, small cob, rich golden yellow color. Qt. 15 cts., 4 qts. 35 cts., pk. 60 cts., bus. $2.

Holmes' Early Golden Dent. Extra-early, beautiful golden yellow color. Golden Dent is in demand with feeders who want something to be used as a starter for stock fed in the pastures during the fall. Will make good ears. Qt. 15 cts., 4 qts. 40 cts., pk. 75 cts., bus. $2.

Holmes’ Snowflake. A pure white seed Corn, adapted both to the North and South. Qt. 15 cts., 4 qts. 40 cts., pk. 75 cts., bus. $2.

White Cap Yellow Dent. Very early and a great yielder. The cap of the Corn being white and the balance pale yellow combines earliness and hardiness. Ears 8 to 10 inches in length and well filled. Qt. 15 cts., 4 qts. 40 cts., pk. 75 cts., bus. $2.

Holmes' Giant Ensilage. Immense yield of stalk and good ears. Makes fine feed for stock. Pk. 50 cts., bus. $1.75.

Red Cob Ensilage. Grows very tall and leafy. Grain white, cob red. Pk. 50 cts., bus. $1.75.

Sweet Fodder Corn. Will mature ears in any part of the country. Nothing can make better feed than this. Feed ears and all. Pk. 65 cts., bus. $2.25.

SEED OATS

IMPROVED WHITE TARTAR

Outyields nearly all others and is the very very best for all-round purposes. Earliest variety grown with long straw, usually averaging 4 to 5 feet and rust-proof. Succeeds well on all soils. Golden yellow color. Grains white with golden cast. Withstands stormy weather without lodging or falling off of grains. A measured bushel weights from 36 to 42 pounds. Lb. 25 cts., 3 lbs. 65 cts., postpaid; by freight or express, pk. 40 cts., bus. of 32 lbs. $1.50, 2 bus. or more at $1.35 per bus. Special price on large quantities. See page 35.

LONG'S STORM KING

See front cover of our catalogue. Last year Mr. Isaac Long, a successful, scientific and widely known farmer, imported this remarkable Oats from Tartary. We have named it Long’s Storm King because it stood up completely and perfectly during very heavy storms the month preceding oats harvest. It was then 4 to 6 feet tall. It yielded over 100 bushels to the acre and weighed 45 lbs. to the measured bushel,—clean and bright, no smut. There were 190 to 250 grains to each head. Greatest drought-resister known, and Mr. Long’s crop shows it is the greatest yielder ever brought here. The illustration shows Mr. Long holding a small sheaf. Note the wonderful length of the straw and heaviness of head. Lb. 55 cts., 3 lbs. 75 cts., postpaid; pk. 65 cts., bus. of 32 lbs. $2.25, 2 bus. sack $4, 10 to 20 bus. at $1.75, 21 to 50 bus. at $1.60 per bus.

BIG FOUR

This very handsome and very white Oat of great productiveness has become very popular in many sections of the United States. Pk. 40 cts., bus. of 32 lbs. $1.35.

BARLEY

Beardless. This variety is free from beard. Lb. 20 cts., postpaid; by freight or express, pk. 50 cts., bus. $1.50.

Triumph. A distinct bearded 6-rowed variety. Free from smut, straw stiff and erect. No Barley can approach it in yield. Lb. 30 cts., postpaid, by freight or express, pk. 75 cts., bus. of 60 lbs. $2.25.

SEED WHEAT

We sell hundreds of bushels of the best and most improved varieties of seed Wheat every year which have attained a very high reputation on account of their cleanliness and superior quality. We will take pleasure to quote prices for fall or spring planting. Send for our Wheat Catalogue.

SASKATCHEWAN FIFE SPRING WHEAT. A favorite for spring sowing; vigorous and productive; best variety for flour making. Price, qt. 15 cts., pk. 75 cts., bus. $2.50.

SUNFLOWER

Mammoth Russian. Makes large heads; valuable for poultry. Qt. 30 cts., postpaid; by freight or express, pk. 75 cts., bus. $2.25.
BUCKWHEAT
Japanese. Is much superior to the common Buckwheat. The yield is far greater and it makes a superior flour. Is used as a poultry food. Sow one bushel (48 lbs.) per acre broadcast. Lb. 25 cts., 3 lbs. 60 cts., postpaid; freight or express, pk. 50 cts., bus. $1.75.

Silver Hull. The grains are of a silvery gray color, making a white flour. Prices same as Japanese.

BROOM CORN
Improved Evergreen. Best variety for general cultivation, on account of color and quality of brush; ripens very early, grows about 8 to 10 feet high; brush of good length, fine and straight, and always of green appearance when ripe. Lb. 25 cts., postpaid; by freight or express, qt. 20 cts., pk. 75 cts., bus. $2.50.

KAFFIR CORN (White)

Used principally for feeding pigeons, poultry, etc. The fodder may also be fed green or dry to the dairy cows. Sow from June to July; 5 to 8 lbs. per acre broadcast. It grows from 4 to 5 feet high, and is a tremendous producer of seed. Qt. 10 cts., pk. 45 cts., bus. (50 lbs.) $1.50.

RYE

White Winter Rye. It is much hardier than wheat and can be grown on a greater variety of soils. It is not only grown for grain, but for straw and soilless purposes. Plowed under when about 6 inches high, it is in condition to add great fertility to the soil. Rye can be cultivated longer on the same land than any other crop. Can be sown at the last working of corn. Sow at the rate of 1/4 bushel to the acre. Pk. 75 cts., bus. $1.50.

Spring Rye. True stock. Spring Rye is an excellent catch crop where winter grain has been killed out, or where a fall crop has not been planted. Pk. 75 cts., bus. $1.50.

TIMOTHY SEED

Holmes’ “Eclipse Brand.” Is strictly Minnesota-grown. See our samples before purchasing.

MANURIAL CROPS

Modern agricultural practice proves that it is far more economical and desirable to grow the nitrogen fertilizer for soil than to attempt to produce this in the form of manure, especially on large farms where much live stock is not kept. The farmer who is getting poor yields because of impoverished soil is doing a great injustice to himself. The chief thing it needs is organic matter, and if he cannot afford to give enough of this in the form of manure, he can afford to grow and turn down certain good cover crops for fertilizing.

Chief among them are the legumes and members of the pea and bean family, for the reason that the little nodules or lumps of their roots are composed to a great extent of free nitrogen of a kind that is most available for plant growth, and which, when bought commercially, will cost the farmer at least fifteen cents per pound. The clovers of various kinds, such as the Mammoth Clover, Red Clover, Aliafa, Alsike and the sweet clovers are beneficial as soil renewers, and in addition to these there are other members of the great family of Leguminosce which have their proper place and should not be ignored. Cow-Peas, Soy Beans, and in fact peas and beans of all kinds, Sand and Spring Vetch, Sainfoin, Kidney Vetch, Yellow Lupine and other Legumes have the power of catching nitrogen from the atmosphere and transforming it into available form for the plant growth.

Where soil is even too thin or poor in quality to grow Red Clover, Sand Vetch or Alsike can be started, and after growing these crops the Red Clover can then be grown with success. As an orchard cover crop nothing is better than Crimson Clover, which is becoming the most satisfactory cover crop for orchards in this country. The poor man who would enrich his soil should do so, not by expensive commercial fertilizers, but by growing Legumes and turning them down. If this is done, he can then add lime, phosphoric acid in the form of acid phosphate, and potash in the form of Kainit or wood-ashes, and will find the soil then to contain fairly well-balanced rations for plant-food, and be rich and productive in a few seasons.

COW PEAS

Can be grown in all parts of the country where dent corn succeeds.

It is one of the best for temporary pastures. As a grazing crop it is valuable for producing milk, growing young stock and fattening all kinds of domestic fowls and animals. Effective fertilizing plant, and can be used as a green manure crop at any time during the summer and in almost every crop rotation.

Can be grown on greater variety of soils than any other Legume.

Large Black Eye. Extremely early variety, matures peas in six to eight weeks.

Prices for small quantities, pkt. 10 cts., pt. 25 cts., qt. 45 cts., by mail, postpaid. On larger quantities by freight or express write for prices. Prices range from about $2.25 to $3.50 per bus.

Black. Quicker to mature than other varieties and better adapted for late planting or for growing north of Virginia.

Clay. Tall, erect, large dark green leaves; stems of vigorous growth; pod large and yellow; seeds kidney-shaped, medium size, cream-colored; medium to late in ripening.

New Era. A very regular variety, erect and not inclined to run; matures in 60 or 75 days.

Whippoorwill. Usually an erect grower and rarely clubs; pods gray, long and full; seeds large, nearly spherical, mottled red and white; matures early. One of the best for late planting and growing.
SOJA BEANS
The Soja Beans take the place of clover where the soil is not fertile, both for hay and for fertilizing purposes. It is a sure cropper. Ordinary yield of beans 25 to 40 bushels per acre. They are one of the richest of natural stock foods. Sow about one bushel per acre, either broadcast or drilled.
Mammoth Yellow. Pk. 75 cts., bus. (60 lbs.) $2.75.

DWARF ESSEX RAPE
This plant is extensively grown for sheep forage, and for green manure. There is perhaps no better plant where a quick rank growth is desired. Farmers who desire to get young cattle, sheep or lambs into favorable condition to be sold a advantageously in the fall, can do it most cheaply by growing this. Three pounds of seed per acre, in rows or broadcast at the rate of six pounds to the acre. Our stock is the true Essex Dwarf. Lb. 10 cts., bus. (60 lbs.) $6, 100 lbs. and over at 8 cts.

CRIMSON CLOVER
Crimson Clover will increase the productiveness of land more than twenty times as much as the same amount spent in commercial fertilizers. Can be used as a winter and spring grazing crop—makes a good hay crop—the best of early green feeds—prevents the winter leaching of the soil. Lb. 12 cts., bus. about $5. Write for prices.

SORGHUM, or SUGAR CANE
Sorghum is a sweet fodder of most luxuriant growth. There is no better feed for horses—very nourishing, fattening and keeps the bowels open, and can be safely fed at any stage of growth. Fed to cows proves a great milk producer, and is a wonderful feed to fatten hogs. Gem Sorghum will produce as high as twenty tons per acre, and two or three cuttings in a single season. Order seed early so you can sow when not too late. Early corn planting in your section is the time to sow.
Early Amber. This variety grows from 11 to 12 feet in height, and anywhere it can be planted by the first of May. The seed ripens almost invariably, affording an excellent food for stock and poultry. Lb. 20 cts., 3 lbs. 55 cts, postpaid; by express, qt. 20 cts., pk. $1, bus. $2.50.
Early Orange. Largely planted in the warm southern states where the season is longer than that required to mature Early Amber. Lb. 20 cts., 3 lbs. 55 cts, postpaid; by express, qt. 20 cts., pk. $1, bus. $2.50.
Early Gem. This is a strong grower and will outyield any other Sorghum; is highly recommended as a feed for horses and cows. Bus. $3.

FIELD PEAS
"Peas could be made to bring more nitrogen to the soils of this country every year than is now purchased annually by the farmers at the cost of millions of dollars."—Year book of the U. S. Department of Agriculture. The above statement gives something to think about. Grain has been grown year after year on many farms, sapping the life and fertility of the soil. Peas are second only to clover in their soil-enriching properties, and can be grown almost any condition. The vines make rich, nutritious hay.

CANADA FIELD PEAS
A small-seeded very hardy Pea which is valuable to sow early in the spring, in connection with stiff-strawed oats, to produce green foliage for making ensilage, or to turn under. Lb. 15 cts., bus. (60 lbs.) $2.50, 10 bus. at $2 per bus.
Large Marrowfat. Growth immense. The best of the Field Peas for hay. Pk. $1, bus. (60 lbs.) $3.25, 10 bus. at $3.10 per bus.

SPRING VETCH
Used for the same purpose as the Sand Vetch, but will not thrive on poor soil or withstand extremes of weather as successfully. Sow with oats or other grains, for the advantage of each an acre. Large pkt. 5 cts., lb. 20 cts., postpaid. By freight, lb. 10 cts., 10 lbs. 6 cts. per lb., bus. $2.75, 100 lbs. $5. Bags free.

SAND, HAIRY, or WINTER VETCH
A large-yielding and nutritious winter forage crop; splendid for grazing and soil-improving. It is very hardy, is valuable as a winter cover crop, to prevent leaching. It is an annual but resows itself and will come up year after year on the same ground. Thrives on poor, light land and stands extremes of drought, heat and cold. It may be sown either in the spring or fall with about half a bushel of rye or oats for support. Valuable as a Clover does not thrive. The U. S. Department of Agriculture estimates the value of an acre of this Vetch plowed under equal to commercial fertilizer at the rate of $16 to $40 an acre. 1 to 1½ bushels of seed required to the acre. Large pkt. 5 cts., lb. 20 cts., postpaid. By freight, lb. 15 cts., 10 lbs. 12 cts. per lb., 100 lbs. $10. Bags free.

MILLETS
There is nothing like Millet for sowing to fill up the shortage in your hay crops. It can be sown up to the middle or end of July, and makes a valuable catch crop.
German, or Golden Millet. Matures about two weeks later than common Millet. The seed we offer is southern-grown, and will produce more than double the quantity of fodder usually got on the same ground. 4 to 5 feet high. Sow one bushel to the acre. Lb. 20c., 3 lbs. 50c., postpaid; by freight or express, bus. (48 lbs.) $1.75. Price subject to change.
Pearl Millet, or Pencillaria. Entirely different from the ordinary Millet, sold recently at high prices as Pencillaria. An immense fodder yielder, attaining a height of 8 to 10 feet; highly recommended by the United States Department of Agriculture. Can be cut several times during a season. Sow 10 pounds to the acre. Lb. 30 cts., 3 lbs. 75 cts., postpaid; by freight or express, 10 lbs. $4, bus. (50 lbs.) $4.50.
Siberian Millet. Rapidly becoming the most popular of all Millets. Very productive; grows 4 to 5 feet. Withstands drought wonderfully. Lb. 25 cts., 3 lbs. 60 cts., postpaid; by freight or express, 10 lbs. $4.50, bus. (50 lbs.) $7.
Japanese Millet. Particularly valuable in the northern states as a quick-growing forage and ensilage crop. 6 to 8 feet, yields 10 to 18 tons of green fodder per acre. Cattle consume it without waste before touching green corn fodder, and cows fed on it invariably increase in milk. Two parts of the Millet with one part Soja Beans form a complete balanced ration that may be fed without grain. Use 10 to 12 lbs. per acre. Lb. 12 cts., 10 lbs. $1, 100 lbs. $9.

HUNGARIAN GRASS
A very valuable forage plant of the Millet family, but not so coarse. Sown and cultivated same as Millet, and quite a favorite with stockmen. Lb. 20 cts., postpaid; by freight or express, 10 lbs. 50 cts., bus. (48 lbs.) $1.75.
Choice Lawn Grass Seed Mixtures

A Few Words Here.—The seedsmen is always censured if weeds come up in the lawn. We invariably purchase the finest grasses we can obtain, either here or abroad. Weed seeds are carried by the thousands by birds and by the manure you put on the soil. Even if you plant nothing, weeds will come. We know of soil which was excavated at a depth of seventy feet and inside one month was covered with a magnificent growth of numerous weeds.

MAKING AND CARING FOR THE LAWN

Preparing and Manuring the Ground. In making a new lawn, all grading, tree planting and laying out of walks and drives should be done first. The ground should be thoroughly dug or plowed to a depth of 10 or 12 inches, after which some good fertilizer—pure ground bone is especially recommended—should be applied at the rate of 600 to 800 pounds per acre. The ground should be fine and perfectly smooth and even.

Sowing the Seed, Rolling and Weeding. The best time for sowing grass seeds is in Spring, from February to May, or if in Fall, from September to November, using on small plots at the rate of one quart of seed to each 15 square feet, and for large lawns, golf links, tennis, cricket and croquet grounds, use at the rate of eighty pounds of seed per acre, and for putting greens, 100 pounds of seed per acre. After the seed has been sown broadcast the ground should be thoroughly rolled; or, on small places, beaten with the back of a spade to “firm” the surface and press the seed into the soil. Annual weeds, natural to the soil, will appear before the young grass becomes established; none of these should be allowed to ripen their seeds.

Renovating Old Lawns. This should be done either in the spring or early fall, by raking the soil where bare spots occur, and sowing seed, taking care that it is not covered too deep, and also to roll or pat the surface smooth with a shovel.

Cutting, Feeding and Watering. When the grass has attained a height of 4 inches it should be mown, care being exercised not to cut it too close. Frequent rolling and mowing will make the turf close and compact, strengthen the grass and render the lawn smooth and attractive. Lawns require frequent feeding and watering to keep up their vigor. We recommend Holmes' Lawn Dressing as the best fertilizer for nourishing lawns.

Top-dressing in Fall. A coating of wood ashes and ground bone in the late fall is very beneficial and gives the lawn a good start in the spring. It is also advisable to roll the lawn after the last cutting in the fall; it prevents much of the young growth from freezing out at the roots.

HOLMES' CAPITOL PARK LAWN GRASS SEED

A good lawn once made will last for years if the right material is used and the work properly done. Our Capitol Park Lawn Seed has been thoroughly tested in all parts of the country and gives perfect satisfaction. Its use will insure beautiful, green, smooth, velvety sward, which is often ready for cutting in from four to six weeks. Composed of fancy, reclaned domestic and foreign grasses best adapted for a perfect and enduring lawn. No more sodding, once Capitol Park Lawn Seed is used, for, if directions are followed, you are sure of good results. Lawn seed can be sown at almost any time, from early spring to late in the fall. Qt. 25 cts., 2 qts. 45 cts., (add 5 cts. per quart extra if sent by mail), seed in bulk, by freight or express, pk. $1.25, bus. of 20 lbs. $4.

HOLMES' SHADY NOOK LAWN MIXTURE

The beauty of many lawns today is marred by the unsightly bare spots under shade trees, shrubbery and close to walks, due to all-day shade. Unfortunately the regular Lawn Grass Seed will not thrive well in shady places, but we have, by long experience in the study of grasses and their growing natures, succeeded in making a special mixture that will produce a velvety green sod in the very shadiest nooks and corners. The special grasses that are used in this mixture are mostly imported and high-priced, and we can recommend this variety to our most critical trade. The grasses are all fancy reclaned and we make the prices as low as possible consistent with the quality offered. Ground that is densely shaded is usually covered with moss and clumps of coarse grasses, which should be removed and the ground covered with slaked lime before sowing our special mixture. Qt. 35 cts., postpaid; by freight or express, qt. 50 cts., 4 qts. $1, pk. $1.60, bus. of 20 lbs. $5.50.

HOLMES' GOLF LINKS MIXTURE

For some years past we have made up a special mixture of grasses adapted specially for golf courses. This mixture is composed of grasses that produce in a very short time a permanent, low-growing, tough green sward of beautiful appearance. By the use of our famous mixtures for fair greens and putting greens, a permanent turf can be produced in a very short time. Lb. 25 cts., by mail 35 cts., by freight or express, bus. of 15 lbs. $2.25, bus. of 20 lbs. $3, 100 lbs. $11.

HOLMES' TERRACE MIXTURES

A mixture of grasses best adapted for sloping ground and terraces. Has deep, spreading roots that hold embankments and cover terraces with a beautiful green turf. By freight or express, bus. of 20 lbs. $5.

HOLMES' SPECIAL MIXTURE

FOR TENNIS-COURTS, CROQUET-GROUNDS, ETC.

A special mixture made from our own formula, producing a turf that will stand rough usage. By freight or express, qt. 30 cts., pk. $1.60, bus. of 20 lbs. $5.50.
HOLMES’ FLOWERS

Flowers are so inexpensive, and so easy to have, that they are not generally appreciated in proportion to what they do to make a place comfortable and beautiful. Even one or two sorts near a house, the small ones in beds and the larger plants standing alone, will do wonders toward lighting the place up and making it more homelike and habitable.

And a larger collection properly grouped and arranged over a lawn or garden, will make of most any place a beautiful home such as you please to admire in your travels. Such a home with its flowers and the pleasant associations which go with them, will make you glad you have a chance to live there, and you will be proud you own it.

Much expense, much time or much space are not required—just a judicious arrangement of flowers and grasses that grow from seed each year—of annuals and perennials, hardy roses, flowering bulb plants, hedge plants and climbing things. In their correct placing lies more than half the charm. If you are puzzled about how to plant we will be glad to advise you without charge. We have a complete Landscape Gardening Department which is equal to any you could pay much for in laying out your grounds and telling you what plants to use and their cost. No matter how small or how big your idea of planting is, submit it for our plan.

Immediately following are listed the less-known flowers which grow from seed. These are given a comprehensive description that will enable you to judge of their value in your own planting. All of them are valuable and there is no real reason why they should not be more widely grown. The standard sorts with which nearly everyone is familiar, are given a more abbreviated general list at the end of these particular descriptions. You will find there almost everything that grows. The vines, roses, hedge plants and summer-flowering plants that grow from bulbs, are each given a division alone. In this way you can locate what you want very quickly.

CHOICE FLOWER SEEDS

We are specialists in Flower Seeds, and extensive growers, and offer flower seeds by weight, which is a great advantage to you. All our seeds are new crop, tested, and of strong germination.

GENERAL CULTURAL DIRECTIONS:—The well-known Annual Flowers, such as Sweet Alyssum, Californian Primrose, Nasturtium, etc., are sown directly—out-of-doors—when danger from frost is past in the position where they are intended to flower. The ground should be dug and raked fine on the surface, sowing the seeds evenly and thinly either in lines or beds, covering not over four times their size, and firming the soil over them. For those which should be started indoors, such as Heliotrope, Dahlia, Stock, Pansy, etc., the best plan is to sow in boxes, which should be filled to the depth of an inch with broken pots, coal ashes or any rough material that will furnish drainage. The upper inch should be nicely sifted soil, composed if possible, of about one-third each sand, leaf-mold and light garden loam. Press firmly and evenly, and water thoroughly the day before sowing. Sow the seeds thinly over the surface, covering about one-eighth of an inch and pressing firmly over with a pane of glass to prevent too rapid evaporation of the moisture, and keep in a temperature between 60 and 70 degrees. Water carefully as needed. The importance of this detail can only be learned by experience and observation. To omit a single watering, or a too frequent watering, usually leads to failure. When large enough to handle, transplant into prepared boxes, an inch apart each way, or put into small pots until time to plant out. At all times they should have an abundance of air; otherwise the young seedlings are liable to damp-off.

Abutilon

(ELEGANT BELLFLOWER, or FLOWERING MAPLE)

New Australian Straw Flower

After being cut, it retains its rosy crimson shades permanently. A half-hardy annual. Grows very rapidly from seed, blooming early and a long time. The fragrant flowers, produced in large, graceful clusters, are 6 inches high. Pkt. 10 cts., 3 pkts. 25 cts., 1 oz. 50 cts.

Ageratum

(FLOSS FLOWER)

Literally a sheet of bloom from early summer till frost. The blues are the most satisfactory bedding plants of this color for United States. Blue Star. A new variety. Tiny and compact, only 4 or 5 inches high, 16 or 18 inches in diameter; covered with light blue flowers; splendid for edgings and ribbon bedding or pot culture. Pkt. 10 cts., 3 pkts. 25 cts., 1 oz. 75 cts.

Very Dwarf White multiform. Pkt. 10 cts., $1 oz. 60 cts.

Fine Mixed. Pkt. 5 cts., $1 oz. 15 cts.

Asclepias

One of the showiest and most ornamental of our summer and autumn flowers; blossoms in close, compact umbels of a brilliant orange color, making it valuable for bouquets. Tuberosa. Pkt. 5 cts., $1 oz. 40 cts.
HOLMES' MAMMOTH FLOWERING ASTERS

Asters are so handsome and useful in a thousand ways that they are common everywhere, and nearly everyone is familiar with them. If there are any points of their treatment and culture that you do not understand, write us a letter about it. We put out a special book devoted to these and other flowers.

GIANT COMET. Resembles Japanese chrysanthemum. Differ from the older Comet Asters not only in bearing much larger flowers, but the petals are longer and broader. The flowers are often 6 inches across, composed of long, wavy, twisted petals, in loose half-globe. Each plant bears a number of enormous flowers on long stems. Mixed colors. Rose and White. Pkt. 10c., 3 pks. 25c. Separate colors, 3/4 oz. 60 cts. Mixed colors, $1.50 cts.

HOLMES' LAVENDER GEM. When the flower first opens it is delicate lavender. This deepens with age. Always full, double and feathery like an ostrich plume, or even more irregularly cut and slashed, till it is almost a picturesque, rugged chrysanthemum. The flowers are born in profusion on slender wiry stems. Medium-sized, low plant. Color and shape of this are away above average. Pkt. 15 cts., 4 pkts. 50 cts., 3/4 oz. $1.50.

HOLMES' NEW ASTER, IMPERIAL LAVENDER. This is one of the most beautiful Asters. It is of true Comet type, with large, artistically arranged flowers, of the most charming shade of lavender imaginable; on long, wiry stems. Blooms in August. You will like the color. Pkt. 10 cts., 3 pkts. 25 cts., 1/4 oz. 60 cts., 3/4 oz. $1.75.

TWO BEAUTIFUL ASTERS, IMPERIAL PURITY AND IMPERIAL DAYBREAK

Beautiful bushy, branching Asters, growing about 2 feet high, with large, double flowers, having incurved petals almost as regularly placed as in a dahlia. Flowers are borne upright on stiff, long stems.

PURITY. Pure white. Pkt. 10 cts., 1/4 oz. 75 cts.

HOLMES' IMPERIAL SUNSET. An extremely delicate light pink, shading to rosy at the center. Altogether, it resembles Daybreak and Purity, and belongs to the same class. Flowers are born in great abundance on long stems. Pkt. 15 cts., 4 pkts. 50 cts., 1/4 oz. $1.50.

HOLMES' LATE GIANT BRANCHING. The plants form strong, branching bushes, 2 to 4 feet high, bearing on long stems their chrysanthemum-like flowers, which average 5 inches across. The form of the flowers, together with the length of the stems, places them at the head of list of Asters for cutting. Usually at their best during September. They fill in the gap between the general run of Asters and chrysanthemums, and do it well. Splendid Mixed, Pure White, Pink, Purple, Lavender, Crimson. Pkt. 10 cts., 1/4 oz. 50 cts. Ordinary mixed, 1/4 oz. 25 cts., 1/4 oz. 40 cts., oz. 75 cts.

GIANT OSTRICH-FEATHER. So large, so beautiful, so unique in their charming grace, so different from all other types, that the immense double flowers, often 6 inches across, of long, narrow, loosely curled petals, suggest a curled ostrich plume. Exceptionally handsome as cut-flowers. The plants are of healthy and luxuriant growth, about 2 feet, each bearing 25 to 40 flowers. Bedded out, they are exceedingly showy. Splendid Mixed, White, Rose, Carmine, Blue. Pkt. 10 cts., 3 pkts. 25 cts., 1/4 oz. 75 cts. Mixed, 1/4 oz. 50 cts.

HOLMES' MIKADO PINE ASTER, ROCHESTER. This is an official flower of the city of Rochester. Beautiful lavender-pink flowers, 1 1/2 to 3 inches—a cluster on every one of the dozen long stems on each plant. Flowers unique; petals are narrow, long, graceful; toward the center they cross and pile in magnificent disorder. Pkt. 25 cts., 2 pkts. 40 cts., 1-32 oz. 50 cts., 1/4 oz. $1.50.

HOLMES' MIKADO WHITE. A mid-season Aster, always large and full double, borne aloft on long stems, sometimes 3 feet high. Characteristic Aster; petals curled and twisted. There is hardly ever enough seed for all orders. Pkt. 25 cts., 2 pkts. 40 cts., 1-32 oz. 50 cts., 1/4 oz. $2.

HOLMES' ROSE KING. A winner with fine flower lovers. Of a pleasing shade, very bright and brilliant. Full-double flowers as large as saucers. Are borne on 2-foot stems, and do not wilt easily. In all characteristics, from sturdy, vigorous plants, to massive flowers, it is as royal as its name. Pkt. 25 cts., 2 pkts. 40 cts.

HOLMES' ROSE PURPLE. A little different and a little better than any other in its class. Always full double, always on long stems, and nine and ten are perfect blooms. Medium early and stays long in bloom. Pkt. 15 cts., 3 pkts. 40 cts., 1/4 oz. 75 cts.

HOLMES' VIOLET KING. Probably has won more prizes than any other variety in the world. Foliage richest green. Flowers are different—their petals are fantastically twisted and curled and incurved—blooms fully 4 and 5 inches across, and of very soft violet-lilac color. Pkt. 10 cts., 3 pkts. 25 cts., 1/4 oz. 50 cts.

Clarkia

This pretty and easily grown annual has been much improved in recent years, and is now seen as a cut-flower in most of the large cities of Europe; they do well either in sun or shade, growing 2 to 2 1/2 feet high, with leafy racemes of double flowers, which all open in water when cut. 1 foot. Mixed. Pkt. 5 cts., 1/4 oz. 15 cts.
**Centaurea**

**Imperialis.** A beautiful bouquet flower, blooming first year from seed. Long-stemmed blossoms 3 to 4 inches across, graceful and most deliciously fragrant. The colors of the flowers are infinitely varied from glistening white through shades of red, from flesh-pink to crimson and through blues from silvery lilac to royal-purple, violet with white center, etc. If cut scarcely opened they will last for ten days in water. 2 to 3 feet high. Mixed. Pkt. 5 cts., 1/4 oz. 15 cts.

**Double-flowered, Mixed.** Pkt. 10 cts., 1/4 oz. 15 cts.

**Gymnocarpa (Dusty Miller).** Elegant silvery white foliage; splendid bedding plant. 1 foot. Pkt. 10 cts., 1/4 oz. 15 cts.

**Cyperus**

**Altenifolius.** Very desirable house plant. Pkt. 10 cts., 1/4 oz. 25 cts.

**Cyclamen**

Charming plants, with beautiful foliage and rich-colored, fragrant flowers; universal favorites for winter and spring blooming. Stout flower stalks, thrown well above the foliage.

**Dark Blood-Red.** Pkt. 25 cts., 1/4 oz. $1.75.

**Giganteum.** Immense flowers, borne very profusely. Mixed. Pkt. 20 cts., 1/4 oz. 50 cts.

**Butterfly.** The edges of the flowers are beautifully fringed or waved, giving them a grace not possessed by the old class; they are of surpassing beauty. Mixed colors, pkt. 35 cts., 100 seeds $2.50.

**Coles**

**Large-leaved.** Plants grow about 2 feet high. Beautiful bronze or copper color; leaves quite distinct. Pkt. 10 cts., 1-1/2 oz. $3.

**Large-leaved Fringed.** Large leaves, deeply cut and fringed. Embracing combinations of markings entirely new. Pkt. 10 cts., 1-1/2 oz. $3.

**Finest Mixed.** Pkt. 10 cts., 1/4 oz. 50 cts.

**Cineraria**

**Holmes' Prize Strain.** Our Superb Prize Strain of Cineraria is distinguished by its splendid variety of color. Every conceivable shade of pink, carnation, crimson and blue, varying from the palest forget-me-not to the richest violet, as well as pure white and the gorgeous bi-colors of crimson and white, and blue and white. The flowers are of immense size. Plant compact, robust and healthy. Pkt. 20 cts., 2 pkts. 35 cts., 1-1/2 oz. $3.50.

**Plenissima Dwarf Double Large-flowering Mixed.** A most exquisite sort. Pkt. 35 cts., 1-1/2 oz. $5.

**Maritima (Candidissima).** Dusty Miller. Very fine for edgings and borders. Silver foliage. Pkt. 5 cts., 1/4 oz. 20 cts.

**Standing Cypress, or Belvedere** *(Kochia tricophylla)*

An annual which, sown thinly in spring, soon forms a cypress-like hedge of rich green in perfect symmetry. By midsummer it attains a height of about 3 feet, and on the approach of autumn the whole plant becomes a deep red. Splendid to divide for a part of the garden from another, or for forming a hedge for the summer. Pkt. 5 cts., 1/4 oz. 20 cts.

**Cup Flower** *(Nierembergia)*

A half-hardy perennial, slender-growing plant, perpetually in bloom, flowering the first year if sown early; desirable for the greenhouse, baskets, vases or bedding out. 1 foot.

**Frutescents.** White, tinted with lilac. Pkt. 10 cts., 1/4 oz. 15 cts.

**Giant-Flowering Cosmos**

Beautiful autumn-blooming plants. They furnish thousands of beautiful flowers in pure white, pink and crimson shades, when other flowers are scarce.

**Holmes' Mammoth Perfection Mixture.** We offer here the most magnificent mixture of Cosmos in the world. The flowers are giants, often 4 inches across, double the size of the old large-flowering Cosmos. The petals overlap, forming a perfectly round flower. Plants 3 to 6 feet high, of symmetrical, pyramidal form, are one mass of feathery, emerald-green foliage. Pkt. 10 cts., 1/4 oz. 25 cts.

**Dawn.** New Dwarf Early Large-flowering. Compact; grows only 4 feet. Pure white, with a tinge of rosy salmon from July until frost. Pkt. 10 cts., 1/4 oz. 20 cts.

**Mammoth Pink.** 10 cts., 1/4 oz. 20 cts.

**Mammoth Crimson.** Pkt. 10 cts., 1/4 oz. 25 cts.

**Rainbow.** All colors in one flower. Pkt. 10 cts., 1/4 oz. 35 cts.

**Diamond Flower** *(Ionopsis aculea)*

A charming little gem, forming tufts but a few inches high and covered with violet flowers in June, and frequently blooming again in the autumn; excellent for sowing on the rockery, also on the top of pots containing large plants, forms a moss-like covering. Annual. Pkt. 10 cts., 1/4 oz. 35 cts.

**Euphorbia**

**Euphorbia variegata.** Attractive foliage, veined and margined with white. 2 feet. Pkt. 10 cts., 1/4 oz. 15 cts.
False Dragon Head  
**Physostegia**
Beautiful perennials, forming dense bushes 3 to 4 feet high, producing in great abundance spikes of delicate white, pink, purple and red tubular flowers in terminal leafless clusters.

_Denticulata._ Pkt. 10 cts., ½ oz. 25 cts.

Purple Feather Grass
A magnificent ornamental grass that flowers the second season. Grown for its graceful plumes. Hardy perennial.

_Feather Grass._ Pkt. 10 cts., ½ oz. 25 cts.

Florida Rattlebox, or Golden Bush Pea  
**Crotalaria**
A beautiful bushy garden annual, with golden yellow, sweet-pea-like flowers, often 30 blossoms on one spike. It blooms profusely throughout the summer until killed by frost. Seed pods, when shaken, sound like a child's rattle.

_Retusa._ Pkt. 10 cts., ½ oz. 25 cts.

Gas Plant  
**Dictamus**
Showy border perennial, about 2½ feet; fragrant foliage and spikes of curious flowers, during hot weather giving off a fragrant volatile oil, which ignites when a match is applied to it.

_Rosea._ Pink flowers. Pkt. 10 cts., ½ oz. 35 cts.
_Alba._ Pure white. Pkt. 10 cts., ½ oz. 35 cts.

_Hunnemannia._ See Eschscholtzia.

Helenium Bigelowii
One of the most exquisite hardy perennials. Blooms the first year when started early, and continues throughout the summer to produce in greatest profusion its charming daisy-like flowers of bright yellow with black center. Splendid for cutting and extremely showy for garden.

Pkt. 10 cts., 3 pkts. 25 cts., ½ oz. 50 cts.

Ice Plant  
**MeSEMBRYANTHEMUM**
Annual, with small white flowers, and almost transparent leaves, that feel cold as ice. ½ foot.

_Crystallinum._ Pkt. 10 cts., ½ oz. 15 cts.
_Tricolor (Wax Plant)._ Mixed colors. Pkt. 5 cts., ½ oz. 15 cts.

Helenium Bigelowii

Job's Tears  
**(Coix lachryma)**
Annual ornamental grass and a favorite of all flower lovers. The leaves are broad and corn-like; the seeds produced are hard, with a shining pearl appearance. Interesting to children, who oftentimes string the seeds as beads.

Pkt. 10 cts., ½ oz. 35 cts.

Jerusalem Cross  
**(Lychnis Chalcedonica)**
A handsome, Hardy herbaceous plant, and, although perennial, it blooms unequally all the first year if seed is sown early. Grows 2 feet, is of easiest culture, growing in any rich garden soil. The plant when adorned with its glowing scarlet flowers is very ornamental. Very effective for massing in beds and borders.

Pkt. 5 cts., ½ oz. 15 cts.

Lantana, Holmes’ Mixed Hybrids
One of the most desirable half-hardy perennial greenhouse or bedding plants, constantly in bloom; verbena-like heads of orange, white, rose and other colored flowers. Sow seed early indoors for flowers the first season. 2 feet. Mixed colors. Pkt. 5 cts., ½ oz. 15 cts.

Lobelia
Very fine plants for edging flower-beds, their brilliant shades of blue and white making a pleasing contrast to masses of reds and yellows.

_Heterophylla Major._ One of the best for this climate, coming into flower early, standing the heat well and continuing to bloom without interruption until frost. The plant forms dense globular bushes about 6 inches high, completely smothered with flowers, which are an inch across, and of a brilliant sky-blue, with a clear white eye. Pkt. 10 cts., ½ oz. 35 cts.

_Compaeta alba._ White; trailing. Pkt. 10 cts., ½ oz. 20 cts.
_Compaeta, Finest Mixed._ Pkt. 10 cts., ½ oz. 20 cts.
_Cardinalis hybrids (Cardinal Flower)._ Rich fiery cardinal flowers; strong plants, often producing 10 to 18 spikes 12 to 24 inches long. Pkt. 15 cts., 1-3 oz. $1.25.

New Hardy Annual Nicotiana, Sanderae
The plant, with its graceful branching habit, is laden from base to summit, literally ablaze with the most handsome carmine-red blossoms. The photograph shows a plant grown in the open ground. Its combined hardness and character of producing flowers (May until frost) in all kinds of soil and situations are its recommendations. Very sweet-scented; grows 2 feet high. Pkt. 10 cts., ½ oz. 35 cts.
HOLMES’ MIXTURE OF TALL
NASTURTIUMS

MADE OF TWENTY SEPARATE NAMED COLORS

Splendid for covering trellises, fences, arbors, piazzas, trailing from vases over rockwork, etc. Nothing can equal the gorgeous effect produced by their marvelous quantities of bloom, borne in uninterrupted splendor from early summer until cut down by frost. Pkt. 5 cts., oz. 15 cts., ¼ lb. 45 cts., ½ lb. 80 cts., lb. $1.50.

TALL NASTURTIUMS

Tropaeolum majus, Separate Colors

These include climbing sorts suitable for trellis, porch or veranda decorations. 5 to 15 feet.

Jupiter. Glowing yellow, with blending of lemon and orange. Pkt. 5 cts., oz. 15 cts.

Any one of the following varieties, pkt. 5 cts., 7 pkts. for 25 cts., oz. 10 cts., ¼ lb. 35 cts., ½ lb. 60 cts., lb. $1.

Atropurpureum. Dark crimson.
Dunnett’s Orange. Blotched red.
Hunnemannia. Chocolate.
Pearl. Pure yellow.

Tropaeolum Lobianum

Also a splendid climber; flowers are not so large, but their colors are very rich and are borne in greater profusion. 10 to 12 feet.

Lobb’s Finest Mixture. All the richest shades of these varieties Pkt. 5 cts., oz. 10 cts., ¼ lb. 35 cts., ½ lb. 60 cts., lb. $1.

DWARF NASTURTIUMS

Holmes’ Tom Thumb Mixture

Bears gorgeous masses of beautiful shades of crimson, orange, brown and white flowers the entire season. The flowers often measure 3 inches across and their brilliancy and velvety richness is enchanting. We cannot attempt to describe the exquisite blendings and markings of the various colored varieties. Seed is saved from the most beautiful varieties only. For summer flower-beds nothing can surpass them. 1 foot. Pkt. 5 cts., oz. 15 cts., ¼ lb. 35 cts., ½ lb. 70 cts., lb. $1.25.

Dwarf Varieties, Separate Colors

Chameleon (Carter’s). Variegated.
Corulea roseum. Pretty blush.
Crimson. Bright crimson.
Crystal Palace Gem. Sulphur-yellow.
Deep Scarlet. Orange-crimson.
Emperor. Scarlet-variegated.
Golden King. Bright yellow.
King of Tom Thumbs. Fine deep scarlet.

PANSIES

Pansies are thought by many to be the finest flower. They hold rank with the more pretentious moss roses, irises and peonies and do not lose caste from their humble beauty. “Just a little Pansy” may have more true beauty, more of a restful and cheerful air about them, than all the gorgeous beauties of the East. A fringe or bed of them joins a touch of refinement and completeness to the scheme of form and color that is like the effect of eyewhocks on a face. But Pansies do not need any setting. They look well alone.

Holmes’ Giant Exhibition Mixture

No Pansies in the world can surpass this selection of mammoth specimen flowers. Our ambition in this mixture is “perfection”, and we have never seen any Pansies to equal these either in size, form or markings. It is a selection of the most gorgeous named exhibition flowers, and we make it up of seed saved from the largest, most perfect in form and markings, and brightest, showiest flowers, selected personally from the beds of our Giant varieties. A bed of these makes an effect too gorgeous to describe. The price may seem a little high to some, but we are sure that after you have grown them you will say the seed was worth ten times what you paid.

Pkt. 20 cts., 3 pkts. 50 cts., ½ oz. $1.25, ¼ oz. $2, ⅛ oz. $3.50, oz. $7.

Masterpiece, a Giant Pansy

Enormous flowers, 4 inches across, daintily ruffled edges, clearly distinct markings and, in fact, a flower of recent introduction that has won volumes of praise from lovers of this particular flower. It is a master indeed of its class. Pkt. 15 cts., 2 pkts. 25 cts., ½ oz. $1.25, ¼ oz. $2.

I received last orders of seeds O. K., and much pleased with the same and know you will be glad to know your seeds have all been so very satisfactory. I have at least twenty-five acres out in truck and all of your seed, and think there has not been one seed to fail. I have picked new peas the first of this week and my neighbors have not blossomed as yet. I have green tomatoes in the field as large as walnuts, which I consider fine, while others are just planting their’s out. I have more than 10,000 cabbages out up to this time, and have celery and other plants enough to supply the whole county. I will have new potatoes within ten days or two weeks and the finest Hubbard and Boston Marrow squash patch I ever saw, about three acres of the same and all seeds were equally as good. I am much pleased and hope you will be glad to know the same with many thanks.—Geo. E. Hess, R. F. D., No. 2, Duncan, Pa., June 2, 1910.
**Holmes' Giant Splendid Pansies**

A remarkable strain of Giant Pansies, the flowers of which are so large and full that the broad petals seem to be "gathered" to the stem, causing them to be undulated and flushed from center to circumference, not unlike "frilled" velvet. The flowers are extraordinarily large and are borne on strong stems well above the foliage; they are nearly all five-blotted on the "Odior" pattern, and contain rich combinations of coloring, including some new tints and blendings not met in other Pansies. Splendid selection for garden and florists. Mixed colors. Pkt. 10 cts., 1/2 oz. 75 cts., 1 oz. $1.50, 1 1/2 oz. $2.25, oz. $4.

- **Giant Adonis.** Light blue, with a yellowish white face and dark blotches. Pkt. 10 cts., 1/2 oz. 50 cts.
- **Giant Bronze Colors.** Mixed. Pkt. 10 cts., 1/2 oz. 50 cts.
- **Giant Fire King.** New; brilliant red and yellow. Pkt. 10 cts., 1/4 oz. 50 cts.
- **Giant Lord Beaconsfield.** Deep purple-violet, shading to white at top. Pkt. 10 cts., 1/2 oz. 50 cts.
- **Giant Snow Queen.** Satiny white, center tinged yellow. Pkt. 10 cts., 1/4 oz. 50 cts.
- **Giant Striped.** Differs from the Improved Striped in vigorous growth and size of blooms. Pkt. 10 cts., 1/2 oz. 50 cts.
- **Giant Fancy (Improved Cassier).** Rich colors, mixed. Pkt. 15 cts., 1/4 oz. $1.
- **Giant Five-Spotted.** This variety represents the highest perfection in Pansies. Pkt. 15 cts., 1/2 oz. 75 cts.
- **Giant Canary-bird.** Bright golden yellow, marked on each petal with a large dark blotch. Pkt. 15 cts., 1/4 oz. $1.
- **Improved German, Splendid Mixed.** From finest strains. Pkt. 5 cts., 1/4 oz. 30 cts., oz. $1.

**PETUNIAS**

**New Superbissima Petunia, Mammoth Rheingold**

An entirely new variety of this favorite flower. Introduced last year. The flowers of the Rheingold variety are enormous, perfectly shaped and of a pure golden yellow with a broad, clear white margin. It is the finest of all. Pkt. 25 cts., 2 pkts. 45 cts., 1-1/2 oz. $2.

**New Fimbriata Petunia, Canary-bird**

A magnificent flower. This is the first yellow Petunia. The plants average 14 inches high and are covered with beautifully fringed flowers of a distinct yellow, which deepens in the throat, the majority of the flowers coming true. We recommend it highly. Pkt. 35 cts., 2 pkts. 65 cts., 1-1/2 oz. $3.

- **New Star.** Perfect star in center of each flower. Pkt. 10 cts., 1/2 oz. 75 cts.
- **Holmes’ Defiance, Large-flowering.** Flowers 5 inches in diameter and all colors. Pkt. 20 cts., 1-1/4 oz. $2.50.

**Holmes’ Fancy Fringed Petunias**

Few flowers afford greater effectiveness for outdoor decoration. This variety is one of the best of all Petunias. Give it very rich, fine earth, a sunny situation, being careful that the seed is merely covered when sown. Sowing seed too deep is often the cause of failure to grow this charming favorite. All colors mixed. Pkt. 10 cts., 3 pkts. 25 cts., 1-1/4 oz. $1.75.

- **Hybrida, Finest Mixed.** Pkt. 10 cts., 1/2 oz. 15 cts.
- **Double Giant.** Extra fine double. Pkt. 20 cts., 1-1/2 oz. $7.

**Stokesia cyanea**

Eighteen to 24 inches high and begin flowering in July, continuing without interruption till late in October. Handsome lavender-blue, centaurea-like blossoms which are valuable for cutting. It is perfectly hardy. Pkt. 10 cts., 3 pkts. 25 cts., 1/4 oz. 75 cts.

**Snapdragon (ANTIRRHINUM).**

- **Tom Thumb, Mixed.** Dwarf. Pkt. 5 cts., 1/2 oz. 35 cts.
- **Majus.** Tall; extra-fine mixed. Pkt. 5 cts., 1/2 oz. 40 cts.

**Thalictrum**

- **Aquilegifolium.** Rose-lillac. Pkt. 5 cts., 1/2 oz. 20 cts.
- **Glaucum.** Yellow Pkt. 5 cts., 1/2 oz. 20 cts.

**Veronica spicata**

An elegant border plant, growing 3 feet high, producing long spikes of beautiful flowers, the spike lengthening with age. Blue. Pkt. 10 cts., 1/2 oz. 25 cts.

**Yarrow, Double White (Achillea ptarmica. "The Pearl")**

One of the best hardy white perennials. Grows about 2 feet high, and from spring till frost is covered with heads of purest white double flowers. A grand plant for cemetery decoration. Pkt. 10 cts., 1/2 oz. 75 cts.
NEW “ORCHID-LIKE” SWEET PEAS THE COUNTESS SPENCER TYPE

Magnificent flowers, with superb and charming form, exquisitely colored, enormous in size and in their entirety of a type so noble and grand as to compel love and admiration for themselves from all who see them.

NOTE.—The standard of the Sweet Pea is the top petal, and the wings are the two lower petals.

Countess Spencer. Bright clear pink, showing a little deeper at the edges. The form is open and the margin wavy. Both standards and wings are very large, the blossoms often measuring 2 inches across and the stems are long. Pkt. 5 cts., oz. 15 cts., $1.25 lb., 50 cts., lb. $1.50.

Helen Lewis. The standard is intense crimson-orange, wings are orange-rose; enormous flowers with open form and wavy edges. Pkt. 5 cts., oz. 15 cts., $1.50 lb., 50 cts., lb. $1.50.

George Herbert. The flowers are generally borne four on a stem, are of gigantic size, with ruffled, wavy edges; bright rose-carmine, showing veins of a deeper shade. Pkt. 5 cts., oz. 15 cts., $1.50 lb., 50 cts., lb. $1.50.

Phenomenal. The mammoth flowers are silvery white, faintly suffused with soft pink and beautifully edged with rich purple. Pkt. 5 cts., oz. 15 cts., $1.50 lb., 50 cts., lb. $1.50.

Queen Alexandra. Giant intense scarlet flowers of semi-rounded form borne on long, strong stems; very fine. Pkt. 5 cts., oz. 15 cts., $1.50 lb., 50 cts., lb. $1.50.

White Spencer. Enormous pure white flowers; beautifully poised wings, which are large and wavy, and the standard is erect, crinkled and fluted. Of splendid substance. Pkt. 10 cts., oz. 25 cts., $1.50 lb., 75 cts., lb. $2.50.

SPECIAL OFFER. We will send one packet of each of the above Fifteen Grand Varieties of “Orchid-like” Sweet Peas for material. Pkt. 5 cts., oz. 15 cts., $1.50 lb., 50 cts., lb. $1.50. A grand mixture of all the “Orchid-like” varieties, a selection that is unequalled for size, beauty, length of stem, free-flowering and substance. Pkt. 5 cts., oz. 15 cts., $1.50 lb., 50 cts., lb. $1.50.

Our Idea of the Best

STANDARD VARIETIES

Pinks, Single—

Poppies—

Poppies, Double—

DWARF SHIRLEY. Very fine; only 9 inches high; flock with purple, crimson, and copper color. Pkt. 5 cts., 10 oz., 15 cts.

VINES, TRAILING AND CLIMBING PLANT SEEDS

Nearly every home has old trees, fences, buildings or what-not that would be regular beauty places if covered with vines and climbing things, but with all are now ugly. From the Morning-Glory on through all the list that grow anew from year to year or are permanent, you find many suitable for your use, as screens or for their own sake.

**ASPARAGUS Sprengeri.** Fine for baskets or conservatories. Pkt. 10 cts., oz. 25 cts.

**Piumosus nanus.** A dainty feathery fern. Pkt. 15 cts., 100 seeds $1.

**ALLEGHENY VINE (Adlumia).** Sometimes called Wood Fringe, Mountain Fringe or Climbing Fumitory. For covering trellises, tree-stumps, etc., is very desirable. It is biennial, but resows itself, and will remain for years.

**BALLOON VINE (Cardiospermum halicacabum).** A very pretty and graceful climber of spreading habit, producing small white flowers. Called Love-in-a-Puff. Pkt. 5 cts., oz. 25 cts.

**BLACK-EYED SUSAN (Thunbergia).** A beautiful, tender climber 3 to 5 feet high, with white, pale yellow or orange-colored flowers having a distinct black center. Alata, Mixed. Pkt. 5 cts., 1/2 oz. 20 cts.

**CUP-AND-SAUCER (Cobaea).** Elegant, rapid-growing climber, attaining a height of 20 to 30 feet. White. Pkt. 5 cts., 1/2 oz. 50 cts. Violet-Blue. Pkt. 5 cts., 1/2 oz. 25 cts.

**CYPRESS VINE (Ipomoea quamoclit).** This pretty climber has a delicate, dark green, feathery foliage and an abundance of bright, star-shaped, scarlet or white blossoms. 20 feet high. Tender Annual. White. Pkt. 5 cts., oz. 25 cts.

**DUTCHEMAN'S PIPE (Aristolochia).** A beautiful and rapid climber, with large heart-shaped leaves and singular siphon-shaped, rich, purplish brown flowers, resembling miniature pipes. Effective for verandahs. Hardy perennial. 15 to 30 feet.

**EVENING GLORY (Ipomoea).** So called from its rare peculiarity of blooming best at night, although it also expands its flowers on dull days. It is a beautiful climber, producing large, pure white, sweet-scented flowers 4 to 5 inches across. Tender annual. 15 to 20 feet.

**BONA NOX — White.** Pkt. 5 cts., oz. 25 cts.

**Choise Mixed.** All varieties. Pkt. 5 cts., oz. 25 cts.

**Molea grandiflora alba.** White. Pkt. 5 cts., oz. 40 cts.

**Hybrida.** Blue. Pkt. 5 cts., oz. 25 cts.

**JAPAN VIRGIN FLOWER (Clematis).** Leaves bright, glossy green, and when in bloom the plant is completely hidden beneath a blanket of white, Hawthorn-scented blooms. 8 to 10 feet.

**Paniculata.** Pkt. 5 cts., 1/2 oz. 25 cts.

**GOURDS.** Summer climbers of luxuriant growth, for covering arbors, etc. They bear fruit known as Ornamental Gourds, which, allowed to ripen on the vines, can be kept for months as curiosities, 10 to 30 feet. Annual.

**Mixed Ornamental.** Pkt. 5 cts., oz. 25 cts.

**Sugar Trough (Sap Bucket).** Pkt. 5 cts., oz. 25 cts.

**White Egg (Nest Egg).** Like an egg. Pkt. 5 cts., oz. 25 cts.

**Dish Cloth.** Pkt. 5 cts., oz. 25 cts.

**Mock Orange.** Pkt. 5 cts., oz. 25 cts.

**JAPANESE HOP (Humulus).** A summer climber, in three or four weeks’ time attaining a height of 20 to 30 feet.

**Japonicus variegatus.** The foliage is remarkably attractive. In three or four weeks’ time attaining a height of 20 to 30 feet. Being an annual, it attains full perfection the first year and produces a dense covering for verandahs, trellises, etc. Heat, drought and insects do not trouble it. Pkt. 5 cts., 1/2 oz. 20 cts., oz. 35 cts.

**LINARIA (Kenilworth Ivy, or Mother of Thousands).** This Hardy little climber clings to walls, etc. and is a valuable trailing plant for hanging-baskets, vases, rockwork, etc. Hardy Perennial. 3 to 6 ft.

**Cymbalaria.** Violet flowers. Pkt 15 cts., 1/2 oz. 35 cts.

**JAPANESE KUDZU VINE (Pueraria Thunbergiana).** The fastest growing hardy climbing plant. It will reach the first year from seed, and after it becomes established there seems to be no limit to its growth, 50 feet in a single season being not unusual. Its foliage is large and covers well; it bears small racemes of rose-pink, pea-shaped blossoms towards the end of August. Pkt. 10 cts., 1/2 oz. 40 cts.

**MORNING-GLORY (Convolvulus).** Splendid for screens; it grows rapidly and bears its various-colored flowers in great profusion. Called Morning Glory. Pkt. 5 cts., oz. 25 cts.

**True Japanese Morning-Glory.** Large flowers of exquisite colorings; foliage variegated. Pkt. 5 cts., oz. 25 cts.

**Fine Mixed.** Pkt. 5 cts., oz. 15 cts.

**Tricolor, or Minus.** Rich-colored trailing plants, producing in late and mixed borders an unusually brilliant effect. 1 foot. Pkt. 5 cts., oz. 15 cts.

**MOMORDICA.** Annual climbers, with large leaves, making dense shade. The flowers are followed by ornamental large fruits of orange or copper color, which burst and expose their red centers. Balsamina (Balsam Apple). Pkt. 5 cts., oz. 25 cts.

**Charantia (Balsam Pear).** Pkt. 5 cts., oz. 25 cts.

**MAURANDYA.** Graceful climber for greenhouse, parlor, basket or outdoor purposes. Set out in the border with a little frame. They will be loaded all the season with rich purple, white, or rose foxtail-shaped blossoms. Fine Mixed. Pkt. 10 cts., 1/2 oz. 25 cts.

**Large-flowering Rose.** New. Pkt 10 cts., 1/2 oz. 25 cts.

**Dark Purple.** Pkt. 10 cts., 1/2 oz. 25 cts.

**PASSION FLOWER (Passiflora caerulea).** Blue. Their wax-like flowers measuring 2 to 3 inches across, derive their name from the resemblance to the instruments of Our Lord’s Passion and its attendant circumstances; thus the three nails—two for the hands and one for the feet—are represented by the stigma; the five anthers indicate the five wounds; the rays of glory, or, as some say, the crown of thorns, are represented by the rays of the corona; the ten parts of the perianth represent the disciples, two being absent (Peter, who denied, and Judas, who betrayed our Lord), and all are of his persecutors are seen in the digitate leaves of the plant and the scourges in the tendrils. The vines are free-flowering and are 10 feet. Pkt. 10 cts., 1/2 oz. 25 cts.

**PORTULACA.** Any dry, bare spot exposed to the burning sun and not fit for anything else which, when allowed to ripen on the vines, can be kept for months as curiosities, 10 to 30 feet. Annual.

**Finest Single Mixed.** Brilliant color. Pkt. 5 cts., oz. 15 cts.

**Double Rose-flowered Mixed.** The brilliance of this mixture is unequalled. Pkt. 10 cts., 1/2 oz. 25 cts.

**POPPY MALLOW (Callirhoe Imnolocrata).** An elegant trailing plant, with finely divided foliage and large saucer-shaped flowers of deep rose color, with white centers, which are produced during the entire summer. Pkt. 5 cts., 1/2 oz. 20 cts.

**SMILAX (Mysriphylum asparagoides).** 10 feet. Tender perennial. Pkt. 5 cts., 1/2 oz. 25 cts.

**SAND VERBENA (Abronia umbellata).** An elegant trailing plant, with hanging-baskets, garden borders or rockwork, bearing clusters of beautiful, fragrant flowers. Pkt. 5 cts., oz. 20 cts.

**WILD CUCUMBER VINE (Echinocystis lobata).** One of the quickest growing vines we know of, attaining a height of 30 feet in a season; white fragrant flowers borne in great profusion; dense foliage. Pkt. 5 cts., 1/2 oz. 20 cts.
HARDY CLIMBING PLANTS

Prices quoted are for large pot-grown plants that must be shipped by express, you paying the express charges, or send 15 cts. extra for each plant and we will pay all charges.

AMELOPSIS Veitchi (Boston Ivy, or Japan Ivy). Foliage rich olive-green during the summer, changing to various shades of bronze, crimson, and scarlet in the fall. Plants 2 to 3 feet, 40 cts. each.

ARISTOCHIA sipho (Dutchman’s Pipe Vine). A rapid-growing climber; singular brownish colored flowers, resembling a pipe. Light green leaves; very large plants. 12 to 18 inches, 60 cts. each.

BIGNONIA (Trumpet Creeper). For covering stumps, rock-work. The rich orange-scarlet flowers are large, attractive and borne profusely. Plants 2 to 3 feet, 35 cts. each.

CLEMATIS paniculata (Japanese Virgin’s Bower). Of strong, rapid growth, with small, green foliage and pure white, deliciously fragrant flowers which appear in the greatest profusion in August. 3-year-old plants, 45 cts. each.

Jacquemontii. The popular purple variety. 3-year-old plants, 45 cts. each.

Henryi. Large creamy white flowers. 40 cts. each.

Crispa. Bears an abundance of pretty bell-shaped, fragrant lavender flowers, with white center, from June until frost. Plants from 5-inch pots, 63 cts. each.

HARDY ROSES

Hardy Roses are permanent guests in your garden or about your home. As often as summer comes again they are there with the fragrant flowers, as a conservatory, with a row around the outside. The plants are offered in all two-year-old, pot-grown, 2 feet high, many of them in bud when shipped.

Any of the following large 2-year-old plants 50 cts. each, $5 per doz.,

25 cts. each, $2.50 per

S. de Pierre Notting. Superb new Tea Rose. A cross of Marechal Niel x Maman Cochet. Blooms very double, large, well filled and opens easily. Color, apricot-yellow, tinged with golden. Rim of petals shaded beautiful carmine-rose. Great quantity of bloom. Kaisera Augusta Victoria. (Hybrid Tea.) One of the most desirable white Roses for summer bedding; large, strongly fragrant flowers of snowy whiteness, produced in great profusion; a strong, healthy grower, with large foliage. Killarney. A splendid new Hybrid Tea Rose; strong, robust grower; free, continuous bloomer; color is brilliant, sparkling pink; flowers are extra large and the buds long and pointed. Altogether a Rose of unusual beauty and excellence. Clothilde Soupert. (Hybrid Tea.) One of the finest flowering Roses in our collection, producing in large clusters beautiful, perfumed flowers of a French-white, deepening to rosy blush in the center. Duchesse de Brabant. One of the most deliciously scented and beautiful in cultivation, slivery pink, free growth. Etoile de Lyon. (Hybrid Tea.) A splendid rich yellow, beautiful in the bud as well as in the flower.

Francisca Kruger. A fine bedding Rose; color, coppery yellow, shaded with peach; large and full. Hermosa. The old favorite bright rich pink, which is always in bloom. Maman Cochet. (Everblooming Tea.) An extra-strong grower, producing large buds and flowers in the greatest profusion; color rich deep rose-pink, inner side of petals slivery rose; borne on long, stiff stems; very double and exquisite when in bud.

HEDGE PLANTS

With Hedge Plants you can change the appearance of your home from that of extreme wilderness to that of a well-kept plain, from plainness to luxury. A hedge about a place marks that place at once as the home of a careful and a prosperous owner, and best of all, it need not cost much. Although not listed here, we have splendid stocks of Amoor River Privet, as well as Chinese and Golden Arborvite.

California Privet (Ligustrum ovalifolium)

More of it has been planted than all others combined. Its foliage is a rich dark green and is nearly evergreen, remaining on the plant until midwinter. It is free growth, and succeeds under the most adverse conditions, such as under dense shade of trees where other plants would not exist. The best manner of planting is in double rows, the two rows being about 8 inches apart. The smallest size plants here offered should be set 10 to 12 inches apart in the row—alternating the plants—while the larger sizes may be set 12 to 15 inches apart. In order to secure a dense hedge from the base up, the plants should be spaced further apart the first two seasons. Plants 18 to 24 inches, $3.50 per 100, $30 per 1,000. Plants 2 to 3 feet, $5.50 per 100, $50 per 1,000, 3 to 4 feet, $8.50 per 100, $80 per 1,000.

Arborvite

You can get plants for a hedge 150 feet long, beautiful in appearance, at a cost of $2. We have an immense supply of these plants. Order as many lots as you want. We are making a special offer of 200 4- to 5-inch trees, delivered anywhere, for only $6.00. An order amounting to any number of 4- to 5-inch trees, delivered anywhere, will pay at these prices. We can ship this evergreen all through late winter, spring and up to June 10, with perfect safety. It does not start new growth until after June 15.
SUMMER-FLOWERING BULBS

PLANT IN APRIL AND MAY FOR FLOWERS IN JUNE, JULY, AUGUST AND SEPTEMBER

Some of the most beautiful flowers we have grown from bulbs. These are so easily cared for and handled that you never need hesitate about planting them. The Gladioli particularly are now taking a place which in amount grown is second to none but roses and peonies in America.

Cinnamon Vine

A most beautiful and satisfactory hardy climber for covering trellis, piazzas, screens or anything, 15 to 30 feet high, and when the roots become large and established the vines attain a much greater length. The leaves are green, thick and glossy, always clean, healthy and free from insects. The white flowers are born in clusters, and while insignificant, they emit a most delightful cinnamon-like perfume. The roots are thoroughly hardy, remain in the ground for years, increasing in size and vigor, but the vine dies down every winter and shoots up with great rapidity in the spring. Large 2-year-old roots, 8 cts. each., 60 cts. per doz.; 1-year-old roots, 4 cts. each, 35 cts. per doz.

NEW DAHLIAS

The best of their respective classes. Special Dahlia Catalogue sent free upon application.

All Dahlias listed 75 cts. each, $1.50 per doz., except where noted

DECORATIVE DAHLIAS

Admiral Dewey. A rich purple; very free.

Catherine Duer. Iridescent geranium-red; a favorite at Newport, where it is used extensively for cutting.

Clifford W. Bruton. A fine bright yellow.

F. L. Bassett. Carmine-purple, shading deeper at the center.

Lyndhurst. Brilliant cardinal-red; a fine cut-flower.

Henry Patrick. A beautiful pure white.

CACTUS DAHLIAS

Countess of Lonsdale. A peculiar but pleasing blending of salmon-pink and amber; a color difficult to describe. Flowers freely under all conditions.

G. Buller. Cardinal-red; each petal tipped with white.

Keyne's White. A fine white, of perfect shape.

Volker. A charming five-flowering pure yellow.

Kriemhilde. A most popular cut-flower variety; perfect flowers on long stems; color a brilliant pink, gradually shading to white at the center.

Amos Perry. Flowers very large, with long tubular petals. Color fiery red; one of the earliest and finest flowering.

SHOW DAHLIAS

Arabella. Light sulphur-yellow, shaded peach-blossom on edges; a fine flower.

Duchess of Cambridge. Base of petals white suffused pink, heavily tipped dark crimson.

Miss May Loomis. White, suffused with soft rose; very pretty.

John Thorpe. Solferino-rose, of perfect form.

John Walker. An elegant pure white.

Red Hussar. Pure cardinal-red; perfect form.

FANCY DAHLIAS

Chameleon. Flesh-colored center, shading to crushed strawberry, with yellowish blending.

Admiral Schley. Rich crimson, with garnet edges and a broad band of pure white through the center of each petal.

Lucy Fawcett. Sulphur-yellow striped and spotted carmine-rose.

Mrs. Stancombe. Straw-yellow, suffused amber, striped red and mottled and tipped blush.

Keystone. Light rose, spotted and striped crimson.

Eloise. White, tinted flesh, each petal edged with deep purplish garnet.

LARGEST-FLOWERING CANNAS

THE VERY BEST VARIETIES, LARGEST FLOWERS AND RICHEST SHADINGS

THE FOLLOWING GROW 3 TO 4 FEET HIGH

Alace. Pale sulphur, changing to creamy white; planted in conjunction with the high-colored sorts it makes a fine contrast; green.

Beauviste. Brilliant crimson with scarlet shadings; a grand dwarf variety; foliage green.

Bittercup. The nearest approach to a clear yellow.

Duke of Marlborough. The finest of the very deep crimsons: fine individual blooms in large trusses, free flowering; foliage green.

Egandale. A favorite bronze-leaved sort; currant-red flowers.

Florence Vaughn. Bright, rich golden yellow, spotted with red.

Mme. Crozy. Popular bright scarlet, golden edge; foliage green.

THE FOLLOWING GROW 5 TO 6 FEET HIGH

Mile. Berat. The nearest approach to a pink in a first-class bedder; foliage green.

Alphonse Bouvier. Finest tall brilliant crimson; foliage green.

Austria. Lily-flowered Canna. In truth a giant, with flowers 6 to 8 inches across, lily-like; rich golden yellow with great patches of brilliant reddish crimson and irregular spots of the same shade on the upper petals.

Italy. Bright orange-scarlet, with broad golden yellow border; the flowers are produced on massive stems, set well above the foliage, which is large and heavy.

Pennsylvania. The flowers which measure fully 6½ inches, are produced remarkably freely and are of an intense vermilion-scarlet, overlaid with an orange sheen.

Any of the above roots, 10 cts. each, $1 per doz., postpaid; plants 12 inches high, ready in May, 15 cts. each, $1.50 per doz., by express (express charges not prepaid).

Spotted-Leaf Calla Lily

(Richardia alba maculata)

Leaves of this variety are deep green with numerous white spots. Flowers are pure white, black center. 10 cts. each, $1 per doz., postpaid.
Elephant's Ear (Caladium esculentum)

One of the most effective plants in cultivation for beds, borders or for planting out upon the lawn, it will grow in any good garden soil, and is of the easiest culture. To obtain the best result it should be planted where it will obtain plenty of water and an abundance of rich compost. Foliage light green. When full size it stands 6 to 10 feet high, and bears immense leaves, 3 to 4 feet long by 2½ feet wide. Extra-large bulbs, 25 cts. each, $2.50 per doz., $15 per 100. First-size bulbs, 15 cts. each, $1.50 per doz., $9 per 100. Second-size bulbs, 10 cts. each, $1 per doz., $7.50 per 100. If wanted by mail, add 8 cts., 10 cts., and 15 cts. each, according to size, for postage.

**COWEE'S GLADIOLI**

**GROFF'S NEW HYBRIDS**

These magnificent new hybrid Gladioli are claimed to surpass all other varieties in size of flowers and exquisite coloring; their many new shades and countless combinations of rare and beautiful colors are truly wonderful. Bulbs, 4 cts. each, 40 cts. per doz., $2.75 per 100, postpaid.

**HOLMES' POPULAR STRAIN**

Very high-grade mixture. Bulbs, 2 cts. each, 20 cts. per doz., $1.50 per 100, postpaid.

**SEPARATE COLORS**

**America.** A new variety, which is conceded to be one of the very finest for cutting or bedding. A beautiful soft flesh-pink; growth perfect. 5 cts. each, 80 cts. per doz., $5.50 per 100.

**Augusta.** A lovely white variety. 4 cts. each, 40 cts. per doz., $2.25 per 100.

**Emma Thursby.** Beautifully striped carmine on a white ground. 5 cts. each, 50 cts. per doz., $3.50 per 100.

**Eugene Scribner.** Large, open flowers of a tender rose-color, blazed with carmine. 8 cts. each, 75 cts. per doz., $5.75 per 100.

**Gil Bias.** Immense orchid-like flowers of a salmony rose, with a fire-red blotch on straw-colored ground. 8 cts. each, 80 cts. per doz., $5.50 per 100.

**La Mark.** Cherry tinted with orange and red, stained pure white. 5 cts. each, 45 cts. per doz., $3 per 100.

**May.** White ground, penciled with crimson. 5 cts. each, 40 cts. per doz., $2.25 per 100.

**Mrs. Beecher.** Brilliant crimson-scarlet with white throat. 6 cts. each, 50 cts. per doz., $3.75 per 100.

**Octoroon.** Salmon-pink. 8 cts. each, 75 cts. per doz., $5 per 100.

**Victory.** A fine yellow. Flowers of medium size and many open at the same time. 12 cts. each, $1.25 per doz., $9 per 100.

**Gloxinias**

The handsomest of our summer-blooming plants, flowers being beautiful in the extreme, many of them handsomely speckled. 12 cts. each, $1 per doz., postpaid.

**Giant Summer Hyacinth** *(Hyacinthus candidus)*

A luxuriant growing, summer-flowering plant, spreading 2 to 3 feet, throwing up great tall spikes 4 to 5 feet in height, each 20 to 30 large white, bell-shaped flowers, of easiest culture and splendid for groups. If planted in the center of beds of scarlet Gladioli, such as Brenchleyensis, the effect is magnificent. 4 cts. each, 40 cts. per doz., $3 per 100, postpaid.

**Jacobaean Lily** *(Amaryllis formosissima)*

Flowers resemble lilies, and are very attractive; the glowing crimson color lightens up the entire garden. 8 cts. each, 75 cts. per doz., postpaid.

**Hardy Lilies**

**Speciosum album.** The most important of all the Japanese Lilies; always satisfactory. The variety here offered has large white flowers of great substance, with a greenish band running through the center of each petal. 9 to 11-inch bulbs. 20 cts. each, $2 per doz., $12 per 100. If by mail, add per bulb 3 cts.

**Speciosum rubrum.** White, heavily spotted with crimson. 9 to 11-inch bulbs. Same price as Speciosum album.

**Tigrinum.** Tiger Lily. Orange, spotted black; 2 to 5 feet. Summer, 10 cts. each, 75 cts. per doz., $5 per 100.

**Auratum.** The glorious Gold-banded Lily of Japan, and one of the grandest plants in cultivation. Its immense, ivory-white flowers are thickly studded with yellow and crimson spots, while in the center of each petal is a golden band, fading at its edges into white. From five to ten magnificent flowers from each bulb the first year. 15 cts. each, $1.50 per doz.

**Climbing Mignonette** *(MADEIRA VINE)*

So much prized for porches and arbors, on account of its rapid growth and freedom from insects. Thick, glossy leaves and long, hanging stems of feathery, fragrant, white flowers. The tubers we offer are selected large size. 5 cts. each, 50 cts. per doz., $3.50 per 100, postpaid.

**Montbretia**

One of the most showy of summer-flowering bulb plants. A dozen or more planted 6 inches apart in a group in a sunny position will form magnificent clumps from 2 to 3 feet across, producing, in great numbers, graceful spikes 8 to 12 inches long, each spike bearing from 18 to 30 exceedingly showy star-shaped flowers, ½ to 1 inches across. They flower freely the first season, but two or three years are required to bring out their merits. Mixed hybrids. Various colors. 4 cts. each, 40 cts. per doz., $3 per 100, postpaid.

**Hardy Peonies**

**Best Red, Pink, White and Purple.** Large roots, any color. 25 cts. each, $2.25 per doz., postpaid.

**Tiger, or Shell Flower** *(TIGRIDAS)*

These gorgeous summer-flowering bulbs look well associated with gladioli, lilies and kindred stock; grow about 1½ feet high, and flower freely throughout the summer. They require the same treatment as gladioli.

**Conchiflora.** Golden yellow, spotted crimson.

**Pavonia grandiflora.** Bright crimson, center spotted with yellow.

**Grandiflora alba.** Ivory-white, yellow center, spotted with crimson.

Price of any of above, 5 cts. each, 40 cts. per doz., $3 per 100, postpaid.

**Tuberose**

Pure white sweet-scented flowers on long spikes.

**Mammoth Bulbs.** 8 cts. each, 80 cts. per doz., postpaid. **Medium Bulbs.** 5 cts. each, 25 cts. for 6, 50 cts. per doz., postpaid.

**Japanese Fern Balls**

Direct from Japan. The Ball is composed of the Japanese Island Fern Roots and Sphagnum Moss, and so constructed as to send out leaves of beautiful emerald-green from every point. They grow rapidly, and make a handsome ornament for the home, conservatory and greenhouse. Directions for starting: The Fern Ball may be allowed to dry up at any time and be set away, and started again by watering as before. These Fern Balls arrive from Japan about December, 35 cts. When ordered by mail, add 10 cts. postage.
SUPPLIES FOR LAWN, FARM, DAIRY AND GARDEN

Modern orchard, poultry and lawn practice has become so much of a science nowadays that it calls for many materials, machines and tools, and as yet hard to get at right prices. Here you will find listed for the poultry plant, orchard, dairy, or farm and garden both the commonly used things at lower prices than usual, and the special articles just lately coming into use. All are in a quality which we know is satisfactory for the purpose intended, of good value for the money, and a good grade in every way. It will pay you to buy your ordinary tools and utensils here: and also when you buy a cream separator, incubator, mill, or similar once-in-ten-year purchase. You can nearly always get better prices for the same goods here than elsewhere.

LAWN SUPPLIES

Everything for the lawn from lawn seed to the auto-gasoline mower, unlimited if what you want is not here, write for prices. We have it.

**FARM AND GARDEN TOOLS**

We guarantee every tool we send out to be of the highest quality and to be entirely satisfactory. We will return the price paid at once if you are not pleased with your purchase. You will note the prices on these tools are very low, but the goods must not be classed with the cheap grade offered by the small dealers at the same price. We are distributors for the factory direct and are saving you the profits of both the dealer and jobber. Order your tools from us and have them sent with your seeds.

SPRAY PUMPS, NOZZLES AND ALL FIXTURES

SEND FOR SPECIAL PUMP CATALOGUES. — We have made arrangements with all the leading and reliable pump manufacturers to distribute their full line of pumps from our warehouses. If you want any make or style of pump, send to us for catalogue and special wholesale factory price. We can save you money. We have a complete line of supplies and can supply your needs promptly. For spraying materials, see page 63.

**Myers' Perfect Lever Bucket Pump**

It has all the advantages of the ordinary barrel pump and bucket pump combined, and is sold at a moderate price. Has one-half more air chamber than any other of bucket pump. Is made of brass with ball valves; handle and foot rest are malleable iron. The work is all done on the down stroke of the handle, and it can be operated with one-third the power required for any old style bucket spray pump. An ideal whitewash pump also.

Price, $4.50.

**Imperial Brass Pump**

Looks almost exactly like the above, and complete, with all attachments, ready to use, $3.50.

**Myers' All-Steel Barrel Cart**

Has 36-inch steel wheels with 1 1/4-inch tire. No tires to get loose, or wood to break or rot when standing out in the weather. This is a first-class outfit for large or small orchard.

Steel Cart only, ready to attach to barrel .......... $5.00
Barrel extra .......... 2 30
Cart, Barrel, Brass Pump, Hose and Nozzle, ready for use as shown in cut. 15 00

**Kant Klog Compressed Air Sprayer**

Complete with galvanized tank. $4.50. Brass tank, $6.30.

**Empire King Pump**

Complete with 20 feet of hose, Magna nozzle, etc., on barrel ready for use. Price, $18.50

**"Auto" Whitewash Sprayer**

An efficient machine for the purpose. Write for complete description. Price, $12.
SPRAY PUMPS, NOZZLES AND ALL FIXTURES, continued

"Auto" Spray Pump

A light, compact compressed-air sprayer with reliable, durable valves and complete equipment for efficient service. Galvanized iron, $4.50; brass, $6.75.

Myers' O. K. Spray Pump

Has mechanical agitator, solid brass ram plunger, ground level valve and seat. Adjustable clamps, will fit any barrel. Use with any kind of mixture. Air-chamber for a pressure of 100 lbs. or more. A thoroughly good pump in every respect. Price $18, with 5 feet of hose and Vermorel nozzle.

Ideal Spraying Outfit

For small orchard, garden and farm. It is better than a knapsack sprayer and does not cost so much as larger sizes. Holds 15 gallons, is mounted so will not spill, and is easy to handle and operate. Bronze valves, removable, air pressure of 100 lbs., is easily had and kept. Has mechanical agitator and a strainer.

Equipment: 10 ft. ¾-inch pressure hose, 10 foot 3 pc. pipe extension. 1 T shut-off cock. 1 Brandt nozzle. Weight 65 lbs. Price, $18.

Perfect Knapsack Sprayer

The tank holds 5 gallons. The pump has large air-chamber, brass ball valves, solid plunger and agitator. The pump can be removed easily, is also fitted with handle, so the operator can use it on the ground and work pump with handle. The handle lever can be shifted from right to left shoulder at will. Has brass stop cock at end of hose. Pump, with 5 feet of ¾-inch hose, pipe extension and Bordeaux or graduating Vermorel spray nozzle, which can be graduated from a fine mist spray to a solid stream, or shut off entirely. Any other nozzle furnished with these pumps when ordered. Price, $7.

Myers' O. K. Spray Pump

Tin Mistic Sprayer

Price, 35 cents; larger sizes, 45 and 60 cents.

New Brandt Sprayer

We recommend this as one of the most substantial and easily operated sprayers we ever used for garden or tree. Write for special circular.

Double Row Sprayer............................. $6.00
Single Sprayer........................................... 5.00
Tree Extension Nozzle, each...................... 1.50

New No. 3 Lightning Single Tube Tin Sprayer

35 cts., add 15 cts., if sent by mail.

Bordeaux Spray and Whitewash Nozzle

Price, 75 cents

The "Easy" Compressed Air Sprayer

Of galvanized steel or of brass. Has automatic shut-off nozzle. Hold 1 gallon and is fine for small gardens or lawns. Galvanized iron, $2.50; brass, $3.

Dry Powder Sprayer

Price, 60 cents

New Daisy Sprayer

Gives continuous spray with both front and back action of plunger.
Price, 75 cts. each.

Iron Pipe Extensions. 10 cts. per foot in 8- and 10-feet sections.

Bamboo Pipes for Extension. Lighter and in some ways better than metal. With connections. $3.

Six dozen at gross price. Special price on larger quantity.

Our bottles are made of the same highest grade flint glass sand. If you want bottles free from air-bubbles, clear, and that will show the milk to the best advantage, get these.

**Milk Bottle Caps**

NOTE.—Our business in caps more than doubled last year. Why? Because we sell the highest grade cap at a less price than others sell the poorest grade.

No. 1. Regular size, printed plain, either milk or cream. 1,000 25 cts., 5,000 $1.10, 25,000 $5.25, 50,000 $10. We print your name and advertisement on the caps free on 50,000 lots; 1st extra on lots less than 50,000. Send for samples.

No. 2 Lip. 1,000 35 cts., 5,000 $1.25, 25,000 $6, 50,000 $11.

**Lift Caps.** With patent lift-flap on top; most convenient cap made. A sure "trade getter." Send for sample. 1,000 35 cts., 5,000 $1.50, one barrel, 50,000, $7.50. We print your name and advertisement on the caps free on orders of $50,000.

**Heavy Steel-Ribbon Milk Bottle Baskets**

- 6-bottle basket .................................. $1.00
- 8-bottle basket .................................. 1.25

**Rapid Ready Change Carrier**

With nickel and penny tubes. Every dairyman should have it. Money is automatically locked and can't drop out but is released in a second by the press of the finger; holds pennies, nickels, dimes and quarters. Change can be made in the dark with this as readily as in the light. No dairyman can afford to be without one. $1.75 each.

**R. & A. Automatic Bottle Filler, No. 1**

Rust-proof copper tank. Crank-lifting attachment. R. & A. 1909 valves. Two cases of pins or quarts filled per minute. Bottles always filled just to the right point. No milk sprays in your face when capping. One man does the work of two. You can cap one row of bottles while the next is being filled. Machines made in all sizes.

**Reid's Corrugated Milk Cooler and Aerator**

It cools the milk quickly, as fast as it runs to within two degrees of the temperature of the water used, at the same time removing animal odors. The cold water enters the cooler at the lower inlet pipe, flows to the opposite side, then up through the corrugations and passes out at the top. The milk flows down over the outside of the cooler in thin film and passes into the can below. Easily cleaned, need not be taken down to wash.

- No. 1—45 gallons per hour .................. $10.00
- No. 2—55 gallons per hour .................. 20.00
- No. 3—65 gallons per hour .................. 25.00
- No. 4—80 gallons per hour .................. 27.50

Capacity, as given above, is for milk at animal heat, 95 degrees. Comes complete with Milk Reservoir Brackets. Faucet for Water Barrel and 6 feet of 3/4-inch Water Hose.

**Pyramidal Cooler**

This is an inexpensive and effective cooler for small dairies, lowering the temperature of the milk 25 to 40 degrees. Keeping the milk sweet considerably longer. This cooler is simple in construction and easily kept clean. It is made of heavy tinned iron. No. 1, 50 quarts, $4.75; No. 2, 55 quarts, $10.00; No. 3, 60 quarts, $15.00.

**Measures**

- Pint, heavy, 10 cts.; medium, 5 cts.
- Quart, heavy, 20 cts.; medium, 10 cts.
- 2-quart, heavy, 30 cts.; medium, 15 cts.

**Utility with funnel attachment.** Pint, 10 cts.; quart, 12 cts. Add 10 cts. if sent by mail.

**Pyramidal Cooler**

Holmes' Sanitary Delivery Case

Holds 12 quarts, 16 and 20 pints—three sizes. A perfect combination of lightness, strength, durability and cleanliness. White wood sides and hard wood end, fastened with cement-coated wire nails driven through the strip of metal. Division wires galvanized. 85c. each, $9.50 per doz.

"There is nothing like Holmes' Zero Lettuce. The best grown."

NO. 1 COMBINED HARROW AND CULTIVATOR—Teeth diamond-shaped, with a small cultivator tooth forged on one end. Quickly removed. Thoroughly pulverizes the soil, but throws very little. Price, complete with lever expander and plain wheel, $5.25; plain (without wheel and lever expander), $4.

NO. 8 COMBINED HORSE-AND CULTIVATOR—Lever adjustable; expands from 24 to 30 inches. Wheel regulates depth. Side hoes have numerous adjustments. A most satisfactory and popular implement. Price, complete $8.50, with plain wheel and without lever expander, $5.50.

CELERY HILLERS—Leaf lifters adjustable in height, and are especially valuable for first workings. Hill celery without handling. Equipped with lever expanders, leaf lifters, and lever wheel. Hilling blades 43 inches long, and adjustable in height without tools; works rows up to 4 feet apart. $18.

IRON AGE COMBINED BARREL TRUCK, HAND CART, LEAF RACK, ETC.—Barrel Truck, without bar, but including one pair of trunions, wheels 1-5/16 inches, $7. Barrel, with trunions, $3.40. Hand Cart Box for truck, $3.25. Leaf Rack for truck, $8.50.

NO. 1 IRON AGE HORSE-AND HOE—Plain, simplest form, $3.50. Wheel, lever expander, horse-hoes and sweeps, furnished with this tool, as shown on No. 6.

LANDSIDE PLOW—Plow and connections, 90 cts. Landside Plow follows in line with single wheel, a perfect wheel-plow. Can be used with two wheels, and is much more manageable with one.

DOUBLE MOLD-BOARD PLOW—May be applied to any and all of our wheel-hoes and combined tools. Has adjustable wings to suit opening fburrows of various widths. For narrow work the wings can be removed altogether. Price, $1.40.

PLANT JR. TOOLS—Get Largest Crops with Least Work

NO. 3 PLANT JR. SEEDER has special force-feed for reliable hill dropping at 4, 6, 8, 12 or 24 inches, or accurate drill sowing, as desired. The opening and covering arrangements are unequalled. We can supply a special opening plow for sowing onion seed for sets. Price, $10.50. Fifteen-inch steel driving wheel. Holds 3 quarts of seed.

NO. 4 PLANT JR. COMBINED HILL AND DRILL SEEDER, WHEEL-HOE, CULTIVATOR AND FLOW, saves time, labor, seed and money. Almost all useful garden implements are combined in one. The plows, hoe, cultivator, weed, or plow, pays quickly, even in small gardens. Price, complete, $11; as a Seeder only, $9. Holds 2-1/2 quarts of seed.

NO. 12 PLANT JR. DOUBLE WHEEL-HOE, CULTIVATOR AND PLOW is the handiest implement ever made for market-gardeners. All cultivating parts are of high-carbon steel to keep keen edge. Specially designed to work extremely close to plants without injury. Does away with hand-weeding. Price, $7.

NO. 16 PLANT JR. SINGLE WHEEL-HOE is a most handy and effective tool for garden cultivation. A fine tool for working close to crops. Price, $5.55.

NO. 17 SINGLE WHEEL-HOE, the same as No. 16, but without the rakes. Price, $5. The most popular wheel-hoe on the market. It is light, strong, and with it you can do the work of from four to six men with hand hoes, and do it easier and better. A favorite among market-gardeners.

NO. 8 HORSE-HOE AND CULTIVATOR will do more things in more ways than any other horse-hoe made. Plows to or from the row. A splendid implement, coverer, hiller, and horse-hoe. Unequaled as a cultivator. Price, $9; weight, packed, $8 lbs.

PLANT JR. 12-TOOTH HARROW, CULTIVATOR AND PULVERIZER is a wonderful tool for berry-growers and market-gardeners. Works deep or shallow without throwing earth on the plants, and pulverizes the soil thoroughly. Invaluable wherever fine close work is needed. Complete, $9; weight, packed 74 lbs.; without pulverizer, $7.40; plain, $6.20.

The 1911 Illustrated Planet Jr. catalog is of great value to every tiller of the soil, whether he needs implements or not. It is free. Write today.
